100 PRIESTS THROWN INTO HAVANA 'JAILS'

ST. PETERSBURG, Fla. (AP)—A thousand civilians, including 100 Roman Catholic priests, have been arrested in Havana and the Sports Palace and a downtown hotel, have been converted into prisons, an anti-Castro radio station reported today. The report came from a station off the coast of Honduras.

NIKITA WARNED 'Keep Out' —JFK

WASHINGTON (CP)—President Kennedy has bluntly warned Soviet Premier Khrushchev to keep out of the Cuban fight or face the prospects of a Caribbean showdown with American troops.

In a diplomatic exchange bristling with threats and challenges, Kennedy Tuesday night threw his moral support behind the Cuban rebels and rejected Khrushchev's demand that he attempt to halt the invasion.

Stating again that the U.S. has no intention of military intervention in the Cuban battle, Kennedy said nevertheless that Americans do not conceal their admiration for Cuban "patriots" who are trying to overthrow Fidel Castro.

REJECTS CLAIM

Denouncing Khrushchev's claim that eventually the world will turn completely communist, Kennedy maintained the world revolution is towards freedom and the U.S. government "can take no action to stifle the spirit of liberty."

Khrushchev had warned that if the invasion is not stopped, "we shall render the Cuban people and their government all necessary assistance in beating back the armed attack on Cuba."

Kennedy shot back: "In the event of any military intervention by outside force we will immediately honor our obligations under the Inter-American (Latin) system to protect this hemisphere against external aggression."

To qualified Western observers stationed in Washington, the atmosphere between the U.S. and Russia reminded them of the cold war fury that followed discovery of an American U-2 spy plane in Russia and ended in the shattered summit conference in Paris last year.

RESIGNS
Former Manitoba premier Douglas Campbell resigned today as leader of the Manitoba Liberal-Progressive party, leaving the way open for favored candidate Gildas Molag to succeed him.

Missing War Paper Stirs U.K. Spy Talk

LONDON (AP)—The disappearance of a top secret admiralty document stirred suspicion at Scotland Yard today that a British spy ring may have struck again.

The missing paper detailed new methods of underwater warfare. It vanished from the safe of an unnamed engineering firm working under con-

tract for the admiralty, police sources said.

The case has been handed over to a special anti-spy section of intelligence officers, created since the recent British spy trial.

At this trial five Soviet agents were sentenced to lengthy jail terms for stealing navy secrets.

Road Deaths Soar 85%

B.C. traffic deaths soared a shocking 85 per cent in March, it was learned today.

The unusually high total of deaths for the month was 22, compared with 12 last year, said an official of the Motor Vehicle Branch.

So far this year there have been 74 deaths, an increase of 38 per cent over the three-month tally of 53 last year.

Cuban Rebels Claim Gains, Join Forces With Guerillas

NEW PRAYER BOOK INTRODUCED

New prayer book of the Anglican Church of Canada was used here for the first time today at Holy Communion service in Christ Church Cathedral preceding opening of 59th session of the Diocesan Synod of British Columbia. Discussing changes in the prayer book are (from left) Bishop Michael Cole-

man of Pender Island; Archbishop Harold Sexton, and Bishop Henry D. Martin, formerly Bishop of Saskatchewan, now retired in Victoria. Sessions of the Synod are being held today and Thursday in Christ Church Memorial Hall. (Times Photo by Bill Halkett.)

Archbishop Harold Sexton

Archbishop Harold Sexton today exploded three controversial proposals in his charge to the 59th session of the Synod (parliament) of the Diocese of British Columbia, meeting in Christ Church Memorial Hall.

1. He urged the admission of Red China to the United Nations "without delay."

2. Suggested the Anglican Church give "sympathetic consideration" to the re-marriage in the church of deserving divorced persons.

3. Called for "proper" religious instruction in B.C. public schools and criticized the Chant report on education for offering no constructive proposals in this regard.

Shipbuilders Strike

SAINT JOHN, N.B. (CP)—Union workers involved in a wage dispute with the Saint John Shipbuilding Dry Dock Company Limited went on strike today.

ADOLF EICHMANN:

'Perhaps I Ought To Hang Myself'

JERUSALEM (CP) — Adolf Eichmann conceded in a tape-recorded confession played here today that he could not claim he had clean hands in the murder of millions of Jews by the Nazis.

"Perhaps I ought to hang myself in public in order that all the anti-Semites in the world should have the terrible character of these events emphasized to them," said the man on trial for the murder of 6,000,000 Jews.

An electrified court heard Eichmann's recorded voice declare: "I know I may face a death sentence. I cannot claim mercy because I am not deserving of it."

COULDN'T STAND BLOOD

Yet, in the extracts of Eichmann's pre-trial statement played back in today's four-hour session, Eichmann portrayed himself as an underworld taking orders, a man who could not stand the sight of blood, who could not sleep after seeing truckloads of women-gassed and who worried because young Germans "were growing up to be cruel."

The court adjourned until Friday for Israeli independence day.

Eichmann said he is "prepared to atone personally for the terrible things" that occurred.

In support of its charges that Eichmann was the operational director of the Nazi plan to exterminate Europe's Jews, the prosecution began replaying extended excerpts from tape recordings of the pre-trial interrogation.

WANTS TO WRITE

Eichmann said that before his death he would like to write a book. He said he wanted the younger generation to know what happened in Nazi Germany and the reasons for it.

Eichmann pictured himself as a man who recoiled from the sight of blood and nearly fainted when he was forced to witness Jews being gassed to death in the Nazi extermination camps.

"I couldn't look . . . I tried to avert my eyes from the sight . . . I was too appalled to look," he said in describing his reactions the first time he saw Jews put to death.

Eichmann also said:

1. The orders for the physical extermination of the Jews during the Second World War came directly from Hitler. They were transmitted to him, he said, by Reinhard Heydrich, chief of the security police of Nazi Germany.

2. He protested to his immediate superior, SS Gen. Heinrich Mueller, and others, that execution was not the way to resolve "the Jewish problem."

3. He begged Mueller not to send him to the death camps for further reports. He said that when he did go, he saw as little as possible.

The voice of the former Gestapo officer echoed through the courtroom, sometimes fading and muffled, as the prosecution played back extracts from a 1,000-word statement he made to his interrogators following his capture by Israeli agents in Argentina last May.

FERRY RUN SUSPENDED

Ferry service between Brentwood and Mill Bay will be suspended Monday through Friday next week while the ferry is docked for annual inspection and overhaul.

Service will resume with the 7:30 a.m. sailing from Brentwood Saturday, April 29.

Continued from Page 1
religious situation in our schools that does justice neither to religion nor to the requirements of a full and balanced education."

NATION-WIDE

The archbishop said it had been suggested that Canada should have country-wide rather than provincial standards of religious education.

"Such a plan would certainly set the question of religious instruction in a more favorable light than it is presently regarded by the B.C. government."

Archbishop Sexton spoke of a rumour, "apparently emanating from the Protestant underground," that the Archbishop of Canterbury (Dr. Geoffrey Fisher) was contemplating union with the Church of Rome.

He said this was referred to by Dr. Fisher as "no more likely than the admission of the Pope to the Church of England."

EVENSONG

The Anglican synod, which takes in all of Vancouver Island and the Gulf Islands, opened with festal evensong in Christ Church Cathedral Tuesday night and was attended by Lieutenant-Governor and Mrs. George Pearkes. The preacher was the Bishop of Kootenay, Rt. Rev. W. R. Coleman, who was consecrated here last January.

Holy Communion was celebrated in the cathedral this morning by the archbishop, assisted by Bishop Michael Coleman of Pender Island, Bishop Henry D. Martin of Victoria and Dean Brian Whitlow.

Regular sessions of the synod are being held in Christ Church Memorial Hall today and Wednesday. The archbishop is entertaining local and visiting clergy at a dinner in the Union Club tonight.

IN PARLIAMENT

'Against Our Workers'
Hees Accuses Opposition
(From Times News Service)

OTTAWA—The long and bitter debate on a government proposal to revise the tariff law branched into new avenues of dissension Tuesday in the Commons.

The detour was opened up by Trade Minister Hees when he charged that the Liberal and CCF parties prefer to see workers in other countries getting jobs that Canadians might be holding.

He also accused them of harming the Canadian economy by painting a "false picture of gloom and doom."

Opposition speakers vigorously denied the charges, described by Opposition Leader Pearson as the trade minister's "usual sermon, variations on an old theme."

The opposition also restated some of their own charges: that the government was attempting to assume arbitrary tariff-fixing powers and promoting a protectionist measure. There was also a suggestion that the government has been dragging its feet on the issue of how to deal with European economic trading blocks.

Under consideration for the eighth day—in a prolonged and sporadic debate—was a government proposal to re-define goods of a class or kind made

in Canada as dealt with in the tariff law. Such goods carry a higher rate of duty when imported than goods not made in Canada.

Just before the House rose Tuesday night, the bill was reported out of committee of the whole following clause-by-clause study, and now requires only third reading.

This was scheduled for today.

Second reading—approval in principle—had been given the bill earlier in the day. The vote was 141 to 34, with the Liberals and CCF voting against.

Mr. Hees said the opposition has been concentrating "on conjuring up the gloomiest possible outlook with respect to the Canadian economy." He had been dismayed in talking to European businessmen to learn of the "very alarming picture" built up in their minds by opposition speeches in Parliament. The same effect had been created in the minds of Canadian businessmen.

The prime minister, who might have helped speed a cease-fire in the troubled Asian kingdom, also was believed miffed because Secretary of State Dean Husk advised him they could not meet on Thursday.

Edwin W. Brunsden (PC—Medicine Hat) complained that when he wanted to watch the CBC television news last night all he could get on his set was "several dozen voluptuous ladies."

He said coverage of the Hollywood academy awards presentations had displaced the regular late evening news at a time when the Cuban situation was critical. The news was more important to Canada than propagandizing Hollywood.

Revenue Minister Nowlan, through whom the publicly-owned CBC reports to Parliament, said it was obvious the corporation assumed Mr. Brunsden and other viewers would not mind watching "these voluptuous ladies," and sitting up later to see the news.

A private bill to incorporate the Aurora Pipeline Company was sidetracked Tuesday for the eighth time this session by oil companies in the Commons.

The American-controlled company seeks to build a pipeline to export Alberta petroleum byproducts to the U.S.

Two CCF members and a Progressive Conservative spent an hour criticizing the bill Tuesday. That took up all the time available and it again was put aside.

Ernest Broome (PC—Vancouver South) said he objects to the proposal because Aurora

OTTAWA ON MOVE

Rail Peace Talks Held

OTTAWA (CP)—The government is starting to move again in a new bid to avert a nation-wide railway strike threatened for May 16, informed sources said today.

As a first step, Labor Minister Starr met Tuesday with Frank H. Hall of Montreal, chief negotiator for the 111,000 non-operating railwaymen who plan to strike next month for higher wages.

Today, Transport Minister Balcer is expected to confer with CPR president N. R. Crump and CNR president Donald Gordon.

The separate meetings are understood to be aimed at sounding out the disputants before a cabinet session set for Thursday.

When it meets, the cabinet will likely review the railway-labor scrap in the light of government action based on multi-million-dollar rail subsidy proposals of the McPherson royal commission on transportation.

There are two immediate deadlines which must be faced by the government:

1. The Freight Rates Reduction Act, which has provided \$35,000,000 over the last 18 months to "roll back" the effect of a 17 per cent freight rate boost awarded in 1958, expires April 30.

2. The Railway Continuation Act, which froze railway wages and averted the first "non-op" strike last Dec. 3, expires May 15.

Should We Sell Our Capital?

TH E FULL LOGIC OF THE provincial government's electrical power policy has been revealed at last by Mr. Ray Williston, oddly enough to an American, not a Canadian, audience.

At Portland, Oregon, in an area hungry for power, Mr. Williston proposed that Canada and the United States join all the hydro resources of the territory west of the Rockies in a single gigantic pool. The Columbia, the Peace, the Liard, the distant Yukon and presumably every other available river would be dammed to pour its electricity into this grid. Then, apparently, Canada and the United States would take what they needed out of a joint supply.

Thus the real clash of policy between Victoria and Ottawa is in the open at last. The provincial government has put the federal government on the spot.

Since the nineteen-twenties all Canadian governments have refused to permit long-term exports of "firm" electricity. That policy was enforced after Ontario had agreed to export power to the United States for a fixed term of years and, at the end of the contract period, could not recapture it.

The United States did not dispute the meaning of the contract but said it could not do without Canadian power and would regard its loss as something like an unfriendly international act. Canada could not reject that ultimatum and the export of power, urgently needed in Ontario, still continues.

Now Premier Bennett asks the federal government to abandon its long-standing policy, not merely on the Columbia but on all our great western rivers. Exports are to be

regarded not as a necessary, temporary means of financing the Columbia scheme but as a permanent industry on a wide-open, wholesale basis.

We are advised not to rent our output of electricity for the time being but to sell it to foreigners forever. Our basic capital is to be alienated beyond recovery.

Mr. Williston does not admit that, of course. He says that when we need more power later on for our own Canadian use we can dip into the international pool and take what we need.

Does Mr. Williston really believe that, after our experience in Ontario? Does he believe that after the growing Pacific States have become absolutely dependent on power from our rivers, and need all they can get, we can turn it off at any time? The American people's dependence on Canadian supply will become so large and complete after a few years that we cannot deprive them of it, even if we are short of power ourselves.

Though Mr. Williston's assumptions are quite unrealistic it is just as well that the dispute between Victoria and Ottawa should be fully clarified. The quarrel about the financial management of the Columbia is now seen to be peripheral to a much broader national issue: Should Canada sell out its capital, its permanent estate and its future economic independence to foreigners?

That is the issue which the federal government must settle without delay either by taking over the Columbia scheme entirely as a national work, without long-term exports, or by postponing it until the British Columbia government is ready to strike a reasonable bargain.

"He keeps mumbling 'There'll be a CANADIAN up there one of these days . . . and he won't be washing dishes, either . . .'"

THEY DIDN'T WASTE A DAY

A Diamond Jubilee of Aid to the Needy

ON the evening of the June day in 1901 that the Lieutenant-Governor gave assent to the Protection of Children Act, a 13-year-old girl was arrested for misconduct in the streets of Victoria.

The Children's Aid Society was made a legal organization under the Act the very next day. The 13-year-old girl was its first case and the work has been going on ever since. The Society obtained a court order naming it as guardian of the girl, and sent her to live in a convent in Vancouver.

The case is noted in the handwritten minute book, under the annual meeting for May, 1902. There have been thousands of other cases since that first one, but their character has not varied much.

The second case on the books was that of a young girl whose "father was dead and her mother drunken." She was sent to the industrial school at Chilliwack.

Third was that of a 10-year-old boy who ran away from his grandparents. His mother was dead and his father a drunkard. The Society found him a home with a family on the West Coast.

Almost word for word, except for the names, such entries have been filling the Society's record books for the past 60 years.

Early Start

The roots of today's Family and Children's Service actually go back to 1895, when on February 25 a number of ladies of various Victoria churches met as a Committee of Charities. They were appointed for the purpose by the Local Council of Women of Victoria and Vancouver Island, and decided to name their group the Friendly Help Society.

Their first task was to open an Exchange and Registry Office with a day nursery to be added. Rather than give away clothing they determined to sell it at a low price, so as "not to make paupers of the recipients."

There was a little flurry with the local YWCA in the minutes of the next meeting, for the "X" ladies were already planning an "Exchange." But it was all settled amicably, with the YWCA concentrating on operating an employment registry and the society devoting itself to destitute cases.

Down through the years other charitable bodies were formed. The Children's Aid Society came in 1901; in 1912 city clergymen formed the Social Service Commission, which in 1923 changed its name to the Social Service League. Ten years later it amalgamated with the Friendly Help Society of 1895 to become the Friendly Help Welfare Association.

In 1938 the name was changed to the Family Welfare Association and in 1947 this organization amalgamated with the Children's Aid Society of 1901 to become the Family Welfare and Children's Aid Society. It was not until 1951 that the present name of Family and Children's Service came into use.

But whatever the name might be, the work was the same. Case workers of today might have trouble distinguishing between their reports and those of the early years of the Society.

The 1903 minutes, for instance, tell of "two incorrigible boys and a girl equally bad" who were causing trouble. There were four other small girls in the family. The mother was out all day working to support them for the father, "a drunkard," had left town.

In desperation the mother signed over all her family to the Society. The boys were placed on farms, the eldest girl sent to the WCTU Home and three little ones sent to an orphanage (from which they subsequently ran away to find their mother). A baby of only a few weeks was put out for adoption.

The "good old days" apparently had a few flaws too.

Other items in the 1903 report tell of a motherless family in which the children were keeping house for the father. "Being ill one day she left because she thought her mistress had imposed on her."

That situation, at least, seems to have changed.

Today the Family and Children's Service lists more than 1,000 cases a year and has added marriage counseling to its work. More than 200 children are taken into care and discharged each year; up to 200 unmarried mothers and their babies are helped; juvenile court work continues and the vital jobs are financed by the government and the Community Chest.

Tomorrow night the annual meeting will review 60 years of invaluable service to Greater Victoria.

As Our Readers See It

Psychic Phenomena

The article about psychical research which appeared in your Weekend Magazine, April 8, indicates that "it is possible that in this materialistic world, the ability to generate psychic phenomena is fading."

It seems to me, on the contrary, that we are blossoming out as never before, especially in influential circles. Probably the reason why some think psychic phenomena is fading is because the different approach now so often used adds an air of refinement so that occultness is not always recognized as such. It has even been suggested in that article that "what we consider sometimes to be supernatural is merely natural."

It is also stated, however, that the case of D. D. Horne, the crystal ball gazer, of 1863 "still defies explanation." Could it be that those who rumored it around back then that he was the devil, were at least getting close to an understanding of the subtle source of his occult powers? Could it also be that this so-called scientific approach now being exploited with the many high-sounding words used to describe it, is but a disguise used to hide the origin of the power that is derived from the same old subtle source?

A READER.

Francis Park Cabin

I should like to make a correction of a statement that was made on a recent radio broadcast regarding the building of the cabin in the Thomas Francis Park.

Owing to a misunderstanding it was said that the Victoria Natural History Society built the cabin. The project was undertaken and completed by the Thomas Park Nature Sanctuary Association which sponsored the building and furnishing of the home for the late Thomas Francis, with the help of the Victoria Natural History Society.

FREEMAN KING,
541 McKenzie Avenue.

Voice of Dawn

Living as I do, within the city of Victoria, I was more than amazed to be rudely awakened for several mornings at dawn by the unexceeded crowing of a rooster. I have lived here off and on since 1919 and was always led to believe that it was against the bylaws to have fowl in the city.

Remonstrations to the owner to get rid of them being of no avail I decided to find out for myself, so talked to the sanitary inspector, the city prosecutor and the police.

My findings were unbelievable. Not only is there no bylaw to protect us but I find we can, each householder that is, have up to 15 fowl, roosters or chickens, or both, on the condition that they are placed 30 feet from a dwelling.

With living so high why not take advantage of this situation, even if it means and one or two roosters would keep each family in eggs and meat for our deep freeze for many a long day. How about it ladies and fellow citizens of Victoria, let us beat the high cost of living and at the same time make sure that all of Victoria will be up and ready for the day at least by dawn.

MRS. R. M. WARD,
1476 Thurlow Road.

DENNIS THE MENACE

From Our Files

April 19, 1901 — London: Chancellor of the Exchequer Sir Michael Hicks-Beach rose in the House today, amid cheers and commenced his budget speech. His opening sentence was not promising.

April 19, 1921 — The Duke of Devonshire, Governor-General of Canada, unveiled the large Queen Victoria statue in front of the Parliament buildings just before noon today.

April 19, 1941 — Toronto: Dr. Allan Roy Dafoe, physician to the Dionne quintuplets, was reported today as safely out of post-operative danger, though his condition is serious.

Garibaldi Olympics

WHETHER OR NOT CANADA plays host to the Winter Olympics at Garibaldi Park in 1968 may be decided this Saturday in Toronto.

Meeting in the Ontario capital are members of the Canadian Olympic Association. Their job is to study sites. The arguments in favor of Garibaldi will be before them.

So also, will be the case of the Calgary Olympic Development Association which favors Banff, and possibly submissions from Manning Park, Fernie, Rossland and Revelstoke.

Garibaldi supporters have prepared an impressive case. They point to a population of 2 million people within close driving distance

of Vancouver, 7.4 million within a 500-mile radius. Their site will be easily accessible for these people by rail or road. Moreover, accommodation exists in and around Vancouver to house visitors.

Beyond this the Garibaldi association has detailed the excellent facilities for adequate ski runs, a bobbed run, lifts and the location of an Olympic Village.

This all makes economic sense to people who plan Winter Olympics. It should make sense also to British Columbians who see in the possible staging of the Games an opportunity to create a year-round recreation area in Garibaldi Park that will be a continuing asset to this part of Canada.

Here is a project all British Columbians can honestly support.

Let's Have More Angry Men

PROF. MOFFAT ST. ANDREW Woodside, principal of University College and acting president of the University of Toronto, who calls himself the "angry old man of Canadian education," has up-dated Alexander Pope, and to good effect.

At the beginning of the 17th century, Pope was telling the world that "a little learning is a dangerous thing." Half-way through the 20th century, Prof. Woodside points out that mere literacy is just enough to expose man to the blasts of propaganda and advertising.

Canadians, he appears to believe, need more knowledge than that which makes them only receptacles for the self-interested viewpoints of those with an axe to grind.

He is indignant over the "passivity" of the adult who not only deteriorates, but sets such a bad

example for youth. He wants more education to encourage people to think, more pure science research and more money for deeper education.

If this makes Prof. Woodside the "angry old man of Canadian education," let's have more angry old men—and angry young ones too.

In an age when the syrupy rhythms of inspired diction carry so many false impressions into the minds of a non-critical public, we need a great deal more dissent than we have at present. When that dissent springs from knowledge and keen critical faculties, so much the better. When it is matched by an increase in integrity and a repudiation of the sleazy safe that often passes for entertainment, its virtues are further enhanced.

MR. KHRUSHCHEV AND THE BERLIN CRISIS

'I Was Sobered by All This Because I Do Not Think There Is Any Bluff in It'

This is the third of three articles covering an exclusive interview with Mr. Khrushchev.

Lippmann

His feeling of urgency, then, springs from two causes: his need to consolidate the Communist East German state—known for short as GDR—and secondly his need to do this before West Germany is rearmed. He said several times that he would soon bring the German

problem to a showdown on the lines of the 12 NATO divisions" get atomic weapons from France and the United States.

Before this happens there must be a peace treaty defining the frontiers of Poland and Czechoslovakia and stabilizing the existence of the East German state. Otherwise, West Germany will drag NATO into a war for the unification of Germany and the restoration of the old Eastern frontier.

The first is what he considers the

real and also the eventual solution. He has no hope, however, that the West will now accept it. His thesis is as follows:

The two Germanys cannot be reunited. The West will not agree to a unified Communist Germany and the Soviet Union will not agree to the absorption and destruction of the GDR by West Germany. There are in fact two Germanys.

The way to proceed is, then, to "codify" the status quo in the form of peace treaties with what he called the three elements of Germany. These three elements are West Germany, East Germany and West Berlin.

This codification would require a formal unification—perhaps, though he did not say so specifically in this talk, a kind of loose confederation.

At the end of the fixed period of time, if a new agreement about West Berlin along the lines I have outlined previously was reached, it would be embodied in a treaty. If no agreement was reached, the legal rights of occupation would lapse.

This German solution was, as we know, refused by the West. But if there is to be another round of negotiation, variants on it are likely to be the substance of the bargaining.

If this fails, Mr. Khrushchev's third position is that he will sign a separate peace treaty with East Germany. Then the GDR will in the Soviet view be sovereign over the rights of access to West Berlin.

If the Western powers refuse to do business with the GDR and use force to enter West Berlin, then the Soviet government will use the Red Army to blockade West Berlin.

Though it would be foolish to underestimate his determination, the threat is not quite so fierce as it sounds. For he most certainly does not want a military showdown, and "doing business" with the GDR is a flexible and not a rigid conception.

I have confined myself strictly to reporting my understanding of the Soviet policy on Germany. If I may venture an opinion of my own, I would make these points.

First, Mr. Khrushchev will not precipitate a crisis until he has had a chance to talk face to face with President Kennedy.

Secondly, he will surely sign a separate peace treaty if he cannot negotiate a temporary accommodation which is described under his "second position."

Third, the crucial points which will determine whether the German question is resolved by negotiation or goes to a showdown are whether the prospect of nuclear arms for Germany increases or diminishes, and whether or not we

say that the freedom of West Berlin, to which we are pledged, can be maintained only by a refusal to negotiate about this future.

I have been asked many times since we left the Soviet Union to come to London whether I found the whole interview encouraging or depressing. I found it sobering.

On the one hand, the evidence was convincing that the U.S.S.R. is not contemplating war and is genuinely concerned to prevent any crisis, be it in Laos, in Cuba, or in Germany, from becoming uncontrollable. On the other hand, there

M. J. Foley Leaving Mac-Powell

By GORDON BELL

Disagreement over "certain aspects of company policy" led to the resignation, announced Tuesday, of M. J. Foley as president of MacMillan, Bloedel & Powell River, Ltd.

Mr. Foley told The Times in a telephone interview today that the disagreement was purely a business matter and his separation from the company was being accomplished in an atmosphere of mutual goodwill.

He declined to elaborate on the policy disagreements which led to his resignation and would say only that he had decided it was in his own and the company's best interests for him to leave.

Mr. Foley said his new position, with a forest industry firm in Eastern Canada, would be announced next week. He will remain in Vancouver for several weeks at least.

J. V. Clyne, MB and PR chairman of the board, in announcing Mr. Foley's resignation, said it would take effect at the company's annual meeting next Tuesday at which time consideration would be given to choosing a successor. Mr. Clyne stated that in leaving, Mr. Foley will carry with him the warmest good wishes of everyone in this company.

SECOND TO LEAVE

Mr. Foley, who was president of the Powell River Co. before the merger, is the second top executive to resign in recent months.

John Liersch, executive vice-president with Powell River and vice-president in charge of MB and PR's pulp and paper production, forestry and timberland management, resigned in February and joined an independent firm, Canadian Forest Products Ltd. as a vice-president.

Forest industry speculation on the two resignations is that the MacMillan, Bloedel group in the company has been successful in imposing its policy views, and that Ralph M. Shaw, senior executive vice-president and former MacMillan Bloedel president, is the likely successor to Mr. Foley as president of MB and PR.

SUN SHINING HERE . . . BUT IN CALGARY!

CALGARY (CP)—More than eight inches of heavy wet snow hit Calgary during the night, knocking out electric and telephone lines and creating giant-sized morning traffic snarls.

Snow was still falling moderately this morning. The storm was heaviest in the Calgary area but it extended as far north as Red Deer, 80 miles away.

Mr. Foley told The Times in a telephone interview today that the disagreement was purely a business matter and his separation from the company was being accomplished in an atmosphere of mutual goodwill.

He declined to elaborate on the policy disagreements which led to his resignation and would say only that he had decided it was in his own and the company's best interests for him to leave.

Cooking will be fun on this Westinghouse Deluxe 30" Electric Range

7 WESTINGHOUSE, ALLIS-CHALMERS NAMED

GE Official Admits Bids Rigged

WASHINGTON, (AP)—A General Electric official testified Tuesday that representatives of the three U.S. producers of large steam turbine generators rigged bids on the multi-million-dollar equipment at meetings between 1951 and 1959.

John Peters, 42, a market research specialist for General Electric, told Senate investigators that the other companies whose representatives participated in the meetings were the Westinghouse Electric Corporation and Allis-Chalmers. Senator Estes Kefauver,

Democrat of Tennessee and who would have the position chairman of the Senate anti-trust and monopoly subcommittee, asked whether the purpose was to divide up the market for the generators.

"If a job was coming up, there would be a discussion of higher price."

STIFF PRICE MAY SEND SCALPERS INTO HIDING

MADISON, Wis. (AP) — Ticket scalping is legal in Wisconsin and a state assembly man is trying to introduce legislation calling for licensing of scalpers in hopes of wiping out the practice.

Frank E. Schaeffer Jr., Democrat assembly man for Milwaukee, argued before the assembly committee on excise and fees Tuesday that his bill requiring a \$500 fee for anyone selling tickets for more or less than the regular price would put scalpers out of business.

SPORTS DIARY

By JIMMY CANNON

What They Really Mean . . .

NEW YORK — "He really hounds that ball," said the manager when asked about the rookie. "He ain't got an arm, he got a rifle. Ever see a better pair of hands? Going from first to third, he flies. But the thing that impresses me most about him is he comes to play. He hustles every minute."

What he really means: "The bum can't hit."

"My guy knows how to fight," said the contender's manager. "He knows what he's doing every minute. But all they want on television is punches. They see a couple of knockdowns, and they think they seen a great fight. Look at his face. There ain't a mark on him."

What he really means: "You know why there ain't a mark on him? He runs so much, no one could get close enough to hit him."

"He got left at the post," said the jockey who was beaten by a nose. "We got shuffled around on the backstretch. Turning for home, he run up on the leader's heels and I had to take him up. I couldn't find a hole and had to go to the outside and loop the field. But just a couple of more jumps and we win it all."

What he really means: "I goofed."

"It was just an off night," said the coach of the defeated college basketball team.

What he really means: "The school gives them a scholarship. The gambler gives them cash. Who would you play for?"

"This team has the greatest potential of any one I ever managed," said the second division manager.

What he really means: "We'll be in the second division for three more years."

"Everybody is always knocking bookmakers," said the bookmaker. "Who gets clipped every time there's a fix? It's the bookmaker, ain't it? I'm for honesty in sports because that's the only way I could make a living."

What he really means: "How can I be in on the next fix?"

"The quarterback job is wide open," said the professional football coach.

What he really means: "If we can't make a trade for a quarterback, we won't win a game."

"We just kept the pressure on them," said the winning basketball coach.

What he really means: "The secret of coaching a basketball team is to have players that are bigger than the other guys."

These are two determined kids with a lot of spirit," the fight announcer told his audience.

What he really means: "They can't fight."

"We got a strong bench," the president of the ball club explained.

What he really means: "Every player on the squad belongs on the bench."

"He's just like my own son," said the fight manager when asked about his relationship to the pug.

What he really means: "I'm always close to the hums. I manage. If you ain't, they go and get a lawyer to look out for their end."

"I'll play as long as I can help this club," said the veteran pitcher.

What he really means: "I was 2 and 12 last year, but it counts for pension time just as much as a 20-game season."

"We don't contemplate a change at this time," said the general manager when asked if he intended to fire the manager.

What he really means: "He's safe until we make a settlement on his two-year contract."

"I never done business with Frankie Carbo," said the fight promoter.

What he really means: "I done all my business with the guys Frankie had fronting for him."

"Our bull pen's strong this year," said the pitching coach.

What he really means: "We're carrying 11 pitchers and every one of them is good in relief. Not one of them figures to last more than three innings."

Alouette Fans Angry But Still Buy Tickets

MONTREAL (CP)—Despite loss of Sam Etcheverry and Hal Patterson, look for Montreal Alouettes to do a brisk business at the gate this year.

Everybody seems to be mad at the front office of the Big Four football club. But capers that have inflamed the fans have stirred interest as well.

Perry Moss, sophomore coach and general manager, speaks from the thick of the controversy with cheerful optimism.

"Our season-ticket subscriptions are running on a par with last year," he said.

This would give the Als about 17,000 full-season subscribers by the May 15 deadline. Molson Stadium seats more than 26,000. Last year's attendance ranged from 20,000 to 24,000 a game.

Moss said that to his knowl-

edge the club had no more than 15 or so letters from bitter fans cancelling their season-ticket options.

Typical reaction from one hard-boiled fan: "I'm not going to give them a chunk of my dough after the mess they made of things."

But he grudgingly admitted that he "just might go out to see what sort of squad they come up with, just now and again, of course."

If this attitude is fairly general, and there are indications that it might well be, then the Als can expect to pick up on game-to-game sales.

The malcontents lashed the front office for an assortment of grievances. Foremost was the deal that sent away quarterback Etcheverry and end Patterson.

housewives

who say, "Getting the family going just doesn't give me time for breakfast," will welcome Nutrament.

businessmen

who say, "If I don't work through lunch, I get behind in my work," find Nutrament an ideal way to eat.

secretaries

who say, "How can I eat lunch and also get my shopping done?" have time for a Nutrament meal.

teenagers

who say, "The game is starting — I haven't got time to sit and eat," can drink a Nutrament meal.

Nutrament

for everyone who skips or skimps on meals

The Nutrament meal is ready to drink—gives you all the nourishment you might otherwise miss.

One tin of Nutrament gives you nourishment similar to a light meal. It satisfies your appetite. And tastes delicious any time of day.

Nutrament answers some of the problems that arise from the rapid kind of life we lead. Like most of us, you probably skip a meal sometimes because you're busy. Or you skimp, downing a "quick bite" that may be lacking in nourishment.

Now, however, you can drink a Nutrament meal and be as well nourished as though you had sat down to a light lunch. Or breakfast. Or dinner.

When do you drink Nutrament?

Whenever activity has made you skip or skimp on a meal. Or when you need a supplement to a meal that may be lacking in proper nutrition. You can drink Nutrament between meals or as a bedtime-snack... anytime.

What makes Nutrament so nourishing?

Nutrament has been developed by the makers of PABLUM, specialists in quality products through nutritional research. Each tin of Nutrament supplies you with 400 calories. It is formulated to give you nutrients in proportions generally accepted as desirable: 20 grams of good quality protein, 50 grams of carbohydrate, 13.3 grams of fat and all the vitamins and minerals known to be essential for good nutrition.

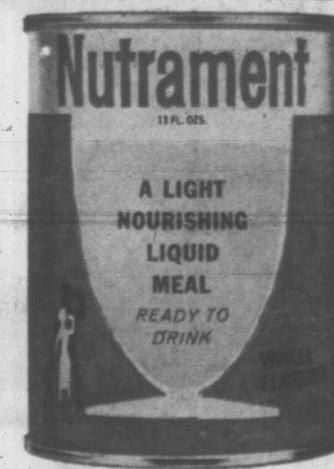

Who can use Nutrament?

Anybody who can eat the food a normal, healthy person does. Because it's so pleasant and easy to drink, you may give it to your children as a supplementary food and even to older people who may be lacking in appetite at mealtime.

This nourishing light meal costs 45 cents*

Hot or cold, chocolate or vanilla Nutrament is a complete light meal in a glass, enjoyable to people of any age. It is not a "discipline food" or dietary—and doesn't taste like one. Meal-skippers and meal-skimpers, rejoice—Nutrament is here! In your nearby store now!

BIG WHEAT DEAL DUE?

HONG KONG (UPI) — Several members of the Canadian wheat board were reported in Canton today discussing a new wheat deal with the Chinese Communists.

However, the Canadian trade office here would not confirm or deny the report. A reliable source said the Canadian group, headed by W. C. McNamara, had been negotiating with Chinese representation here for the last few days but left for Canton following a deadlock in negotiations.

The new deal was said to be a "big" one and follows another deal of 770,000 tons, which was concluded recently.

AMBITIOUS PLANS

Man From Space For Centenary?

By JOHN MIKA

Ambitious plans for an international horse show, review of NATO naval units, top-flight grandstand attraction, and even a man from space are tumbling around in the fertile mind of Victoria's centennial co-ordinating secretary.

William Dow, who strived this week to fill the key position in planning of Victoria's 100th birthday, revealed some of his ideas in an interview.

"This is a really challenging job and I certainly hope I can make 1962 the greatest year ever in pulling tourists here to enjoy the centenary with us," he said.

Among the schemes he is planning to attract tourists are: an invitation to the first successful United States astronaut to visit the city after his flight in space; an invitation to NATO countries to send naval units here for a review; and a 10-day grandstand show similar to the Canadian National Exhibition.

Mr. Dow, an ardent horseman, also plans to try to arrange an international horse show for hunter and jumping classes that would run seven days.

Among attractions for this show, he plans to invite:

The RCMP Musical Ride for daily performances; Arthur Godfrey and his well-known trick horse Goldie or Roy Rogers and Trigger; the Japanese and Mexican jumping

Home Canvass Over the Top

A major success was reported Monday by Victoria Red Cross Society in its campaign for funds, with the residential section of the community-wide canvass exceeding its goal of \$37,500.

This was achieved under the chairmanship of Mr. and Mrs. Geoffrey Gilbert.

The campaign, which started March 1, has so far raised \$2,676, only \$6,323 short of the 1961 target.

Donations are still being accepted at Red Cross House, 1046 Fort Street, EV 6-6361.

RECORD BUDGET

\$5 Tax Increase Due in Oak Bay

Homeowners in Oak Bay will likely be faced with an average tax increase of \$5 this year.

Reeve George Murdoch said Tuesday the mill rate probably will be 23 mills for general purposes with the school rate remaining at 19 mills. "The budget is not set, he said, but a one mill increase at the most is indicated."

Despite wholesale cuts, expenditures had topped revenue by about \$31,000 — or one mill, he said. "The budget this year just a record level of \$2,000,000, an increase of \$122,678 over the previous year."

Based on the assessment of 75 per cent for improvements and 100 per cent on land, the average property owner with a \$5,000 assessed value will pay about \$5 more for his general tax, said the reeve.

"NOT TOO BAD"

"This is not too bad considering the backlog of public works that must be carried out," he said.

Although the school rate likely will stay the same, properties that were valued higher under the reassessment ordered by the provincial assessment commission will have a "fractional increase" in their tax for school purposes.

BUDGETS CUT

Most branches are struggling on sharply reduced budgets from the Community Chest, she added.

Cost per VON visit across the province is about \$2.75, said Mrs. King.

Half the cases handled are government wards; the grant, divided among VON branches which handle these cases, works out to about 95 cents per visit.

\$7,000 More For VON From Gov't

The British Columbia government has boosted its annual grant to the Victorian Order of Nurses by \$7,000.

VON provincial president Mrs. Roy King, said Tuesday the total grant this year is \$37,000.

"This increase will help prevent our order from having to cut its service," she said.

PGE BORROWS \$11 MILLION FOR DEBTS

The Pacific Great Eastern railway has been allowed to borrow another \$11,000,000 with B.C. cabinet blessing.

Approval for the short-term note issue follows a weekend directors' meeting attended by PGE president Premier Bennett in Vancouver.

The money is needed to cover other debts due in the next 18 months.

The new notes may bear interest of up to 5 per cent and must mature by September 1962.

Actual amount needed to cover the debts is \$10,645,297.

The PGE is authorized by legislation to borrow up to a total of \$140,000,000. To date it has borrowed \$116,500,000.

SUPREME COURAGE in face of severe handicap is shown by Bill Anderson as he paints pictures with brush held between his teeth at Gorge Road Hospital. He paints two hours a day, five days a week, assisted by occupational therapist Mrs. John Austin. (Photo by Strickland.)

PAINTS WITH HIS TEETH

He Applied Courage And Won the Battle

If you couldn't use your hands would you have the courage to paint a picture with your teeth?

Bill Anderson, a victim of muscular dystrophy, has that courage and is applying it daily in the Gorge Road Hospital, where he has been a patient since last July.

It was pretty heart-breaking at first, for obviously a brush held in the mouth doesn't respond the way it does when you hold it with your fingers.

NEARLY QUIT

Bill almost gave up in despair. The strokes of the brush looked so clumsy—so little like the kind of picture he wanted to paint.

Then suddenly he began to acquire a dexterity. The brush

responded to the power of his neck muscles and he found the pictures were taking shape.

His first attempt was a No Smoking sign in black and red letters. Then he tried a No Snoring sign in black and green. This had the additional success of making his fellow patients laugh.

After that he painted flowers, beginning with the daffodil. He made a fair success of this and went on to the rose and the lily.

One or two of Bill's creations are displayed on the wall alongside his bed. They are monuments to his courage and determination and not at all bad artistically.

GREAT JOB

He is assisted in his painting by an occupational therapist and he has every praise for the Victoria branch Multiple Sclerosis Society, now campaigning for additional funds.

They are doing a wonderful job of care and research. When you have been prevented from walking for 15 years, you appreciate the tremendous task they are attempting."

Bill has been in a wheelchair since 1945 and spends most of his time in bed. His mother cared for him until last July when he entered the Gorge Road Hospital.

"SOME DAY"

"Some day I may walk again," he said, "and if I do I shall owe it all to the Multiple Sclerosis Society and the staff at this hospital."

The hospital now has four muscular dystrophy patients, three of them women.

do you skip or skimp?

Oil Workers May Test New Law on Check-Off

Vancouver oil workers union is expected to be a legal "guinea pig" to test new B.C. labor legislation in the courts.

Labor and political leaders claim the amendments to the Labor Relations Act banning use of union dues for political purposes are impossible to obey.

They say unions will be forced to lose their right to checkoff because of them.

PRESUMED GUILTY

Oak Bay Liberal MLA Alan Macfarlane said here Tuesday night the law presumed unions guilty and forced them to prove their innocence.

The 620-members of the Vancouver Local 16-601 of the Oil, Chemical and Atomic Workers' Union have lost their checkoff from Shell Oil Co. because the union did not file a statutory declaration to obey the new law.

INJUNCTION

A special meeting of labor officials planned soon by the B.C. Federation of Labor in the 2nd Battalion, Edmonton.

For Money-Saving Surprise Buys Throughout the Bay!

Vancouver will decide if the Association meeting that union officials could not accept responsibility for pledging future use of funds.

"If the official does not do the impossible," he said, "the employer can do away with the checkoff."

PROMOTE STRIFE

This was what had happened in the Vancouver case, he added.

"If this type of legislation does not promote industrial strife I don't know what will," said Mr. Macfarlane.

However, Liberals agreed with the principle of the new laws, though not the way they were drawn up.

Cotton Broadloom

Sq. 3⁹⁹
yd.

Plush, thick-piled cotton that's ideal for bedroom use. Latex non-skid backing requires no binding. Choice of beige, sandalwood, green, wine, cinnamon, rose, brown. 9-ft. width.

Example: 9x12 rug costs 47.88

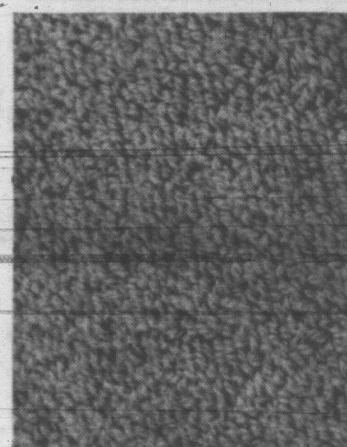

Viscose Tweed Broadloom

Sq. 4⁹⁹
yd.

An inexpensive carpet that combines good looks and excellent service—at an exceptionally low price! Equally suited for rugs or wall-to-wall installation. Non-skid Latex backing requires no binding. Green-spice, grey, turquoise, brown, in 9' widths. Green-spice and turquoise in 12' widths.

Example: 9x12 rug costs 59.88

Viscose Backed With Foam Rubber

Sq. 6⁹⁹
yd.

Hard-wearing Viscose loop-pile is backed with foam rubber—requires no underpad. Comes in gold, green, rose, cocoa and sand.

Example: 9x12 rug costs 83.88

Fine British Wool Twist

Sq. 11⁹⁵
yd.

Gold Band broadloom from a famous British mill—100% pure wool pile, twisted for hard wear and resistance to footprints. Ideal for either rugs or wall-to-wall installation. Choose from gold, rose, blue, turquoise, mushroom, sandalwood and cocoa, in 9 or 12' widths.

Example: 9x12 rug costs 149.90

Luxury Twist Broadloom

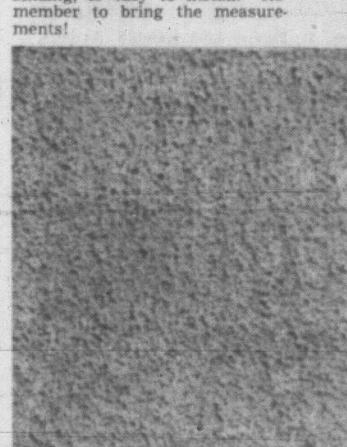

Sq. 18⁹⁵
yd.

A deep, luxuriously thick pile, specially woven in England for H.B.C. will give years of hard wear—still maintain its good looks. Aqua, green or sandalwood.

27" Candy Stripe Trilan

For Hall or Stairs
Sq. 3⁹⁹
yd.

A Canadian Celanese product in colors that will harmonize with plain or viscose broadloom. Non-skid rubber backing requires no binding, is easy to install. Remember to bring the measurements!

Wool Twist Stair Carpet

Sq. 7⁹⁵
yd.

Ideal for areas where traffic is heavy, this closely woven twisted wool yarn (short pile ideal for use on stairs) comes in popular shades that blend well with living room colors.

PAGING THE OLD LAMPLIGHTER

WHAT IS IT?

If you can positively identify this shining but ancient example of automotive power it could win you \$100. Prize money is being put up by the Quarter Milers' Club as part of its two-day show, "Autorama

MONTE ROBERTS

Leave us leave the cluster light controversy temporarily (and reluctantly) to comment on another aspect of the ever-changing face of Victoria streets.

I refer to a phenomenon which is occurring so gradually—like an incoming tide on a calm day—it may have escaped your notice.

Namely, the replacement of untidy, debris-littered, scraggly strips of green grass, between sidewalk and curb, with smooth, level, antiseptically clean asphalt.

This development is occurring, apparently on a planned basis, in many parts of the city.

Where once assort'd types of grasses grew, and even a daisy or a dandelion bloomed to scatter its seeds to the four winds, now there is a geometrically even stretch of black-top.

Or, in some instances, cement.

In either case, the citizens of Victoria should be aware of what is going on, and should make it a point to rush into the streets, shouting and applauding, each time they see the shovels bite into the sod, and hear the joyful putty-putty of the cement mixers.

Citizens should be ever grateful for progress.

And there is no progress quite like the progress evinced when unsightly grass is replaced by the more modern concept of asphalt. Or cement. Or black top.

The reason I am drawing this to your attention is, if you react properly, and express joy at the change, it is possible it will spread throughout the city.

Instead of oddly-formed trees, scattering their blossoms on the street in the spring and desecrating the landscape with their leaves in the fall, concrete monoliths would be much more practical.

Concrete monoliths do not cause a nasty mess upon the streets, and, like asphalt boulevards, need no cutting nor trimming.

It is to be hoped this gradual replacement of grassy strips between sidewalks and curb will be followed by the replacement of grassy strips everywhere, and eventually by the replacement of those messy trees.

TOPICS OF THE DAY

A thief stole property valued at about \$580 from two rooms at the Empress Hotel sometime Tuesday, city police were told.

The house detective said two rooms on the third floor yielded U.S. and Canadian currency, camera, liquor, razor, perfume, wrist watch and ring set sometime between 10 a.m. and 3:30 p.m.

Mayor Percy Scurrall today announced appointment of J.C. Electric vice-president W. C. Mearns as chairman of the advisory parking committee.

First meeting for the eight-man task force was scheduled for later in the day to begin research the city hopes will lead to speedy recommendations on parking garages.

Meeting of Oak Bay Rate-payers' Association will be held at 8 p.m. today in Oak Bay Municipal Hall, Oak Bay Avenue.

Some Oak Bay residents will find themselves without water for six hours beginning midnight tonight.

Oak Bay council announced the water supply for houses along Oak Bay Avenue from Foul Bay to Monterey, and in Wilmot Place and Yale Street, will be cut off between those hours.

Reason is to carry out work in order to improve the water supply during the summer months, a spokesman said.

The Victoria Public Library Board Tuesday dropped a proposal to establish a branch library in Saanich until "conditions are more favorable."

The proposal originated from Saanich council earlier this year.

Council suggested the establishment of a branch library on the new Dominion Construction shopping centre on the east side of Douglas near the Trans-Canada junction.

Dog Stolen In Burglary At Metchosin

A "dognapper" is blamed for the burglary Tuesday of a Metchosin district home systematically ransacked while the owners were at work.

Besides an estimated \$200 worth of personal property including silverware and an heirloom ring listed as stolen is three-year-old purebred chihuahua Skippy, raised from a pup by Mr. and Mrs. H. R. Brereton, 734 Latoria.

The break-in, discovered at about 6 p.m., was reported to Colwood RCMP, who are investigating.

Mr. Brereton said the house was entered after a rear door pane was smashed. "They ransacked the whole house... every drawer and cupboard was opened, but neatly closed again," he said.

And Skippy—a timid but fully trained, short-haired, tan-colored dog weighing 10 pounds—was gone.

The Breretons believe whoever took the dog may not appreciate Skippy's sensitivity. Even though he is large for a chihuahua he could catch cold or die of exposure outdoors.

"We can't figure out what happened to the dog," Mr. Brereton said. "If he had simply got outside, he would have hung around the door waiting to be let back in."

The accused shouted, swore and resisted arrest when stopped on the driving charge, police said.

Magistrate William Ostler prohibited him from driving in Canada for 18 months.

The accused shouted, swore and resisted arrest when stopped on the driving charge, police said.

Decision to locate in Saanich, Mr. Taylor said, came from a conviction that in order to sell competitively in the auto business it is necessary to have plenty of space in low-overhead suburban areas.

The company will deal in Mercury, Meteor, Comet and British Ford products.

Move took the city team by surprise because they had believed a settlement was near.

New demands by the union, representing 270 workers, have not been revealed so far.

Meeting of the League of Roses (Lancs and Yorks) will be held in the Newstead Hall, 734 Fort Street, 8 p.m. Thursday. Entertainment has been arranged.

A meeting of the Victoria Gladiolus Society will be held in the City Hall council chamber Thursday, starting at 8 p.m.

Past presidents and life members of St. Andrew's and Caledonian Society will be honored at a meeting of the society at 8 p.m. Thursday, in Holyrood House.

IT DOES SOMETHING FOR THEIR MORALE...

LIBRARIANS LIKE TO FEEL NEEDED!

GOING TO A LITTLE READING EH CHARLIE BROWN?

OH HUH...I ALWAYS TAKE OUT A BOOK DURING "NATIONAL LIBRARY WEEK"

COUNCIL ASKED TO NAME SECOND TEAM

City council today was asked to write its collective last will and testament.

Deputy municipal affairs minister J. E. Brown asked aldermen to nominate citizens as their successors if the elected officials should be wiped out by a nuclear attack or natural disaster.

The successors, named on a priority basis in case of them also were wiped out, would take over temporary administration of Victoria's corporate affairs in the event of such an emergency.

New Car Dealer For Saanich

Saanich's first new car dealer operation, Suburban Motors Ltd., opened up this week on service station premises it has acquired on Douglas Street at Saanich Road.

Company officials announced a building program will be started soon.

Frank S. Carson, president and sales manager of the new company, said plans are for a \$30,000, 10,500 square foot building fronting on Douglas at 3.75 acres bounded by Oak Street and Saanich Road.

Management of the company will be in the hands of Mr. Carson, formerly B.C. sales manager for Ford of Canada Ltd., and John T. Fleming, company secretary and business manager who was formerly Ford of Canada's B.C. business manager.

The company will deal in Mercury, Meteor, Comet and British Ford products.

Decision to locate in Saanich, Mr. Taylor said, came from a conviction that in order to sell competitively in the auto business it is necessary to have plenty of space in low-overhead suburban areas.

The biggest item in the school program is the construction of a new high school at Wesley Road, Cordova Bay, planned at a cost of \$340,000.

They take up all the seats," he said. "There are even students standing waiting for chairs to be vacated."

The bylaw will go to ratemakers a week after residents of Central Saanich vote on a water distribution bylaw calling for the expenditure of \$185,000 for provision of water mains to certain parts of the district.

The government approved the school building program Tuesday.

The bylaw will go to ratemakers a week after residents of Central Saanich vote on a water distribution bylaw calling for the expenditure of \$185,000 for provision of water mains to certain parts of the district.

Mr. Lort was not unsympathetic towards the students, but said, "Some of the students don't use any of our books or reference material for their homework."

"They only use the room as a place to study."

Cluster Lights in Partial Eclipse

By JOHN MIKA

Mercury light boosters who claim the cluster lights don't throw enough light on city streets are only three-quarters right.

That's about all of the cluster system that is in operation now.

A Times' bulb-by-bulb count Tuesday night showed at least 271 cluster light standards out of the 500-odd in the city were not functioning properly.

Some of the blame has been placed on city council which has been swinging hot and cold for almost a year on various proposals to remove all or some of the clusters.

SLOWED DOWN

This uncertainty naturally has slowed down the cluster maintenance program somewhat although cluster addicts tend to view it darkly as a diabolical plot to eliminate the standards by attrition.

The defects uncovered in the survey of eight streets ranged from missing globes to burned out bulbs to complete five-globe standards without a single light burning.

Here's how the partial statistics added up:

Thirteen glass globes missing; 609 bulbs burned out and 70 complete cluster units unit.

25% BETTER

A reasonable assumption would be that merely replacing the casualties among the 2,500-odd bulbs would have improved street lighting more than a 25 per cent Tuesday night.

Here's a breakdown of the defects and where they occurred:

Douglas, between the Roundabout and Belleville, 91 standards deficient including 28 totally dark, 180 bulbs unit and six globes missing;

Government, Michigan to Herald, 34 standards deficient including 10 totally dark, 88 bulbs unit and two globes missing;

Belleview, in front of the Legislative Buildings only,

School Vote On May 6

Tentative date set for presentation of the \$675,000 school construction bylaw in rural Saanich school district 63 is May 6. Reginald Sinkinson, school board chairman, said

Today.

The government approved the school building program Tuesday.

The bylaw will go to ratemakers a week after residents of Central Saanich vote on a water distribution bylaw calling for the expenditure of \$185,000 for provision of water mains to certain parts of the district.

The answer will be a vital one for Esquimalt, which has a lot of federal property and consequently a high federal grant.

Provincial legislation this year eliminates federal assessment from school tax computations—which helps Esquimalt by reducing its \$242,829 school levy of 1960 by \$107,857 this year.

SHARE PLAN

But that saving may be more than offset by another provincial amendment requiring Esquimalt to share its federal grants with the whole district.

Esquimalt this year has

When a block of wood from his kindling pile mysteriously started to belch clouds of thick smoke, Mr. X became alarmed.

He doused it with a bucket of water and called the police. Their investigation resulted in personnel from the navy's diving and demolition branch arriving on the scene and solving the mystery.

The block of wood, measuring about six inches square, was a smoke float—used by naval aircraft to mark various "sightings" in the course of anti-submarine and other fleet exercises.

This one had failed to ignite upon striking the water, drifted about the sea for some time, lost its paint and markings, and ultimately washed up on a Victoria beach.

It was there that Mr. X found it during a wood search expedition. When he attempted to split the block, the smoke charge was triggered.

That smoke float wouldn't have killed anyone, but it could have started a fire," reports Lt.-Cmdr. B. F. Ackerman, officer-in-charge of the Pacific Command's Operational Diving Unit at Esquimalt.

With summer almost here, and outdoor days being planned by many people, the navy again warns that extreme care should be taken with any unusual object found on the beaches, or anywhere for that matter—especially if it is cylindrical and has fittings or attachments.

Few beached smoke floats have been reported in this area over the past couple of years, but there are other dangers.

One of them is the mine recovery and firing indicator, used extensively in naval minesweeping exercises. They are known as "Strawberries," by way of a nickname, because they're painted red.

Few beached smoke floats have been reported in this area over the past couple of years, but there are other dangers.

One of them is the mine recovery and firing indicator, used extensively in naval minesweeping exercises. They are known as "Strawberries," by way of a nickname, because they're painted red.

Despite precautions, a "Strawberry" occasionally leaves its mine without having been actuated, floats to the surface, and drifts.

Such mine recovery-firing indicators are marked "Dangerous." They are flat

oval in shape, and measure approximately 15 inches in length and eight inches thick.

Persons in doubt about the nature of any unusual device which may have explosive or fire dangers, should:

First, leave it alone.

Second, notify the police, or HMCS Naden.

Third, remain in vicinity of the object until it has been recovered.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask the Times" Editor. Questions and answers will be edited and shortened.

All questions should deal with matters of fact and be of general interest.

The Times does not attempt to settle legal problems. Nor will it attempt to put a value on old coins, stamps or antiques. These should be submitted to a dealer.

Quadra, eight standards deficient including 13 totally dark, 101 bulbs unit and two globes missing;

Pandora, Douglas to Quadra, 18 standards deficient, 24 bulbs unit and one globe missing;

Courtney, Blanshard to Quadra, 30 standards deficient including five totally dark, 52 bulbs unit and one globe missing.

School Taxes Down But City Worried

By JOHN MIKA

School taxes in Greater Victoria District 61 will drop slightly this year despite a \$113,000 increase in costs, but some civic officials are worried there may be a complex "sleeper" in the cut.

Higher provincial grants will take care of the increase and actually cut \$69,600 from last year's levy on district ratepayers, school board secretary-treasurer Tom Christie said Tuesday. This will push the district school mill rate down from 19.36 last year to 19.16.

But civic accountants and lawyers are

SHOPPING GUIDE

Hairnets Made in Taiwan Create a New Fashion Note

By PENNY SAVER

There's a "new look" in hairnets this season. Ones that are made by hand in Taiwan come in sheer nylon with a colorful sprinkling of tiny beads sewn on each of them. Unusual trimming lifts conventional into the ornamental. These nets are available in either light brown, grey, white, medium or dark brown and sell at 39 cents.

For a touch of the Old World on a coffee table or other piece of furniture try using one of the pedestalized vases that come from Italy. These are of grey mottled alabaster and are shaped like bird baths. Four white birds are perched on the rim. A few floating flowers in one of these will add a dramatic and lovely touch to any decor.

Vases come in two sizes. Smaller one sells at \$2.25 while larger is priced at \$3.25.

If you favor Danish furniture you'll love new condiment sets that have the clean, uncluttered lines that distinguish furniture and household goods made in that country.

Sets come in either white or black enameled wood with circular base and tall tubular handle. Salt, pepper and mustard containers each have a smart chrome initial on them. They'd make ideal gifts. White ones sell at \$2.95 while black sets are priced at \$2.50.

If you would like to know where Penny shopped today give her a ring at EV 2-3131.

THE BETTER HALF

"I wonder where the plumber always disappears when you need him—probably fishing with the doctors and TV repairmen."

WHY GROW OLD?

By JOSEPHINE LOWMAN

This Is Bride's Day—Trim Figure for the Wedding

If yours is to be a June wedding, or if that happy event is still a few weeks away, there is yet time to improve your figure.

All brides wish to be as beautiful as possible and may have some small defect you want to banish. With this in mind I am giving you two of the best waist-slimming exercises I know. They also are corrective to the small pads of fat just below the waistline in back, which many women have. Try these:

1. Kneel on both knees and raise the arms upward over head, one arm by each ear. Keep the arms by the ears while you bend to the left and push the hips out to the right. Sit on the heels. Raise the trunk and bend to the right, pushing the hips out to the left and sitting on the heels.

If you would like to have

my tested, waist-slimming exercises, send a stamped, self-addressed envelope with your request for leaflet No. 6 to Josephine Lowman, in care of this newspaper.

Press Club Meeting at Qualicum

Quarterly meeting of Vancouver Island Branch, Canadian Women's Press Club, was held at Qualicum Beach Hotel on Sunday. Members and prospective members attended from Courtenay, the Alberni, Parksville, Nanaimo, Duncan and Victoria. Mrs. Muriel Wilson, Victoria, presided. Members gathered for luncheon in the private dining room at the hotel, followed by a business session.

Plans were discussed for the visit to British Columbia of Mrs. Amita Malik, outstanding woman journalist from India, who is in Canada on a year's travelling scholarship from CWPC. It is expected she will be in this province in July, before returning to India by way of Japan.

Margaret Trebett, Port Alberni, gave a talk on Canadian markets, and Andy Bigg, editor of The Port Alberni Advocate, spoke on the Commonwealth of Nations. They were thanked by photographer Agnes Flett, Nanaimo. Afternoon tea was enjoyed in the hotel lounge.

Rummage Sale—North District Girl Guides' Association will hold its annual spring rummage sale on Saturday at 8 a.m. in the CCF Hall, Courtney Street.

GIRL GUIDES

Pemberton—A coffee party was held recently by the 29th Girl Guide Company at the home of Admiral and Mrs. H. E. Reid, 1530 Despard Avenue. Mrs. K. McDougall was convener, assisted by Mrs. J. Malby. Many Pemberton district local association members and friends were received by Mrs. W. E. Eby. Presiding at the coffee table were Mrs. F. Midgley and Mrs. F. Maurice.

Annual meeting of the branch will be held in June on Salt Spring Island.

Daughters of St. George, No. 238, Friday at 7:30 p.m., K of P Hall.

Others who assisted were Mrs. W. L. Joslin, Mrs. R. J. Barras, Mrs. R. H. Lloyd, Mrs. H. R. Stephen, Mrs. D. T. Willis, Mrs. T. G. Denny and Mrs. J. Wright. Money raised will be used to purchase a tent for the company.

Rummage Sale—North District Girl Guides' Association will hold its annual spring rummage sale on Saturday at 8 a.m. in the CCF Hall, Courtney Street.

Delegates to the two-day annual convention of the hairdressers' Association of B.C. said the style was "easy to look at," "very neat" and would appeal to the "sports-minded women of Vancouver."

DEAR ABBY**Once Burnt, Twice Shy!**

By ABIGAIL VAN BUREN

DEAR ABBY: Your answer to the wife of the man who "liked to look" amazed me. And you call yourself an advice expert! What do you mean, "Just because a man is on a diet doesn't mean he can't look at the menu?"

My husband's hobby was "looking at men's." (He would order occasionally, too.) I finally had to call in a lawyer to get him back on his regular diet. Anyone who says "looking is harmless" doesn't know what it means.

OUGHT TO KNOW

DEAR OUGHT: A man can look at a woman in TWO ways. One is with "lust"—which is wrong. The other is with "admiration." When God created beauty in nature he endowed man with the intelligence to appreciate it. A beautiful woman (unlike the primitive flower) was not "born to blush unseen and waste her fragrance on the desert air."

DEAR SHOCKED: Frequently people will get together and make up a "Dutch Treat" or "No Host" party. But they are planned with the understanding that each guest pays his own way. They do not send invitations to others and ask them to participate.

CONFIDENTIAL TO IN LOVE WITH A SNAKE

Don't let him rattle you.

Yes, Abby will answer your letter personally if you write to ABBY, Box 3365, Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

Getting married? For Abby's booklet, "How to Have a Lovely Wedding," send 50c to ABBY, Box 3365, Beverly Hills, Calif.

"HE LOOKS YOUNG.. SHE'S LOOKING OLDER!"

Unfair—yet how often you've heard such comments about husband-and-wife! When age begins to show in a woman's face, it's generally due to skin dryout—a condition caused by lack of natural oils and moisture. The skin coarsens, little lines and crow's feet appear. But you can treat this problem—with POND'S DRY SKIN CREAM. This famous cream contains Allantoin—a remarkable substance that starts repair work in just 10 minutes! Allantoin floats off lifeless surface cells, opens the way for Pond's rich moisturized lanolin to penetrate deep down. Almost overnight, your complexion becomes softer, smoother, younger-looking! Prevent skin dryout. Get POND'S DRY SKIN CREAM. In jar or tube, wherever cosmetics are sold.

New Wing in Women's Prison Brings Hope; Eases Tensions

KINGSTON, Ont. (CP) — A. they found the surroundings of college sorority house rather less depressing than the old than an institution for criminals.

Inals is the impression given. All bedrooms have bright by new quarters for 44 inmates and each is equipped with a table, bedspread, scatter rug and individually controlled ventilation. The floor contains 48 bedrooms, two green-yellow tint classrooms and a combined DRAMA GROUP ACTIVE.

The large, airy one-storey structure, built behind prison walls during the last year, contains 48 bedrooms, two green-yellow tint classrooms and a combined DRAMA GROUP ACTIVE.

"Tensions have eased since a number of inmates moved into the new quarters," says superintendent Isabel Macneill. The reason was that

How to Save Money on Rug Cleaning

The biggest saving in having your rug professionally cleaned is the year of extra life your valuable rug will give. Only professional "deep cleaning" as done by the people at the CARPETORIUM, 1210 Wharf St., will remove those deep down gritty particles that, day by day, are cutting your rug to pieces!

There's a further saving when you phone the CARPETORIUM, EV 3-2661 or FORT 4-2111. We'll be glad to tell you about the big 20% CASH-AND-CARRY discount. It's easy to earn a extra rug by doing laundry and bringing it to the CARPETORIUM on Wharf will save you real money.

Service is prompt and with your carpet, the best very reasonable rates! Telephone the CARPETORIUM today — EV 3-2661.

Quarterly Meeting Held at Courtenay

Quarterly meeting of Victoria Diocesan Council, Catholic Women's League, was held at Courtenay recently with Canadian Martyrs' Council the host group.

The diocesan president, Mrs. J. R. Horgan, presided.

Councils represented at the gathering were: St. Patrick's, Oak Bay; Sacred Heart, Lake Hill; Queen of Peace, Esquimalt; St. Elizabeth's, Sidney; Our Lady of the Assumption, Brentwood; St. Mary's, Ladysmith; St. Joseph's, Chemainus; Mount St. Peter, Nanaimo; Holy Family, Port Alberni; Canadian Martyrs', Courtenay; St. Patrick Campbell River; St. John the Evangelist, Cumberland, and Our Lady of the Rosary, Langford.

Mrs. Horgan spoke on a movement started in Brantford, Ont., to link Canada's centennial celebrations with the eradication of leprosy, which CWL councils across the country are supporting. Mrs. M. A. Dolan, Brentwood, reported diocesan contributions to World Refugee Year and to the Rosaries for Child Fund as \$546 and \$359, respectively. Radio convener, Mrs. Omer Berard, Shawnigan Lake, urged support of good entertainment programs, especially "Heritage" and "The Christophers".

Diocesan director, Rt. Rev. Msgr. A. McLellan, Victoria, addressed the gathering. Parish directors present were Rt. Rev. Msgr. Baker, Nanaimo; Fr. R. Blaquier, Chemainus; Fr. M. MacNamara, Oak Bay; Fr. J. Turner, Courtenay, and Chaplain Burke, RCAF, Comox.

It was announced the annual meeting will be held at St. Patrick's, Oak Bay, in early June.

Rehabilitation — Dr. R. N. Grant, as guest speaker, told meeting of Greater Victoria District, Registered Nurses Association of British Columbia, of work in helping patients, disabled by accident and disease, to achieve optimum usefulness through rehabilitation hospital treatment. Gorge Road Hospital is this type of centre, Dr. Grant said. Patients are encouraged to help themselves as an important part of the treatment. Removal of patients requiring this type of care from the acutely ill, has proven of great advantage and has made more beds available in general hospitals, he pointed out.

auditorium is being trained in set designing, makeup, lighting and other theatrical tasks.

The new quarters include a common room equipped with television, soft lighting, leather upholstered in leatherette and a profusion of coffee tables.

Originally built for 100 criminals, the women's prison now has room for 148. There are 119 imprisoned at present.

Selection of those to occupy the new quarters was made on a voluntary basis. Miss Macneill said a questionnaire was circulated. Some didn't want to move to the new building while others were anxious to go.

The criminals were not segregated by age or behavior. It was simply a case of "Do you want to move to the new wing?"

Mr. and Mrs. Thomas H. Money, RR2, Victoria, have announced the engagement of their daughter, Patricia Joan, to Mr. Kenneth Reginald Harrison, youngest son of Mr. and Mrs. W. H. Harrison of Victoria. The wedding will take place on Saturday, May 6, in Centennial United Church at 3:30 p.m. A reception will be held in Woods-worth Hall, 721 Courtney Street. (Photo by Myers Studio.)

Students Recital Includes Vocal, Piano, Choral

A recital of piano, vocal and choral music, arranged by Victoria Branch, B.C. Registered Music Teachers' Association, was held recently in the T. Eaton Victorian Room.

Students giving vocal selections were: Donald Anderson, Muriel Smith, Marilyn Gray, Sharon Williams, Carol Bright, Vera Boese, Judy Barr, Margaret Forrest and Larry Lamouroux.

Plane numbers were given by Gail Bamford, Diane Crowther, Lynda Bittner, Mary Ann McCammon, Susan Price, Carole Southron, Colin Bonneau, Angus Arrol, Rosemarie Laverton, Barbara Jull, Connie Matthews, Janis Lee, Gail Dickson, Susan Reid, Beverley Hunter, Joyce Chope, Tiu Kava, Jill Payne, Doreen Laing, Dennis Dodsworth, Scott Crossley, Elizabeth Tyrwhitt-Drake, Susan Ona, Joyce Baker, Paula Lovric, Jean Rolston, Nancy Dickson, Marion Doan, Shirley Milne, Andres Williams, Erika Tosch and Susan Watson.

Mrs. Horgan spoke on a movement started in Brantford, Ont., to link Canada's centennial celebrations with the eradication of leprosy, which CWL councils across the country are supporting.

Mrs. M. A. Dolan, Brentwood, reported diocesan contributions to World Refugee Year and to the Rosaries for Child Fund as \$546 and \$359, respectively.

Radio convener, Mrs. Omer Berard, Shawnigan Lake, urged support of good entertainment programs, especially "Heritage" and "The Christophers".

Diocesan director, Rt. Rev. Msgr. A. McLellan, Victoria, addressed the gathering. Parish directors present were Rt. Rev. Msgr. Baker, Nanaimo; Fr. R. Blaquier, Chemainus; Fr. M. MacNamara, Oak Bay; Fr. J. Turner, Courtenay, and Chaplain Burke, RCAF, Comox.

It was announced the annual meeting will be held at St. Patrick's, Oak Bay, in early June.

CUBA INVASION CONDEMNED BY LABOR COUNCIL

VANCOUVER (CP) — Vancouver Labor Council Tuesday night condemned the rebel invasion of Cuba and several delegates accused the United States of fostering and financing the invasion.

A resolution pledging full support to the Cuban people "in their fight for freedom and a better life" was passed with only one dissenting vote. The identity of the delegate voting against the resolution could not be established.

The resolution said: "It must be clear to all peace-loving and progressive people that the black hand of reaction determined to return Cuba to the Fascist regime of dictator Batista, together with all the sorrows to the working class that flow from Fascism."

TRAFFIC FINES

In city police court Tuesday: Paul L. W. Nielson, 4889 Prospect, \$40 and licence suspension for careless driving.

Trade Gap Widens

LONDON (Reuters) — Britain's trade gap—the surplus of imports over exports and re-exports—rose to £74,100,000 (\$207,480,000) during March, the board of trade announced Tuesday.

However Rebellion Ends, Castro Rule Seems Doomed

By WILLIAM L. RYAN

MIAMI, Fla. (AP) — Fidel Castro's days seem numbered as the ruler of Cuba, regardless of the success or failure of invading rebel forces.

If the invasion achieves one of its major objectives—perhaps the most important of all—it will spark a wave of defections from Castro's forces. This could mean Cuba might be spared a long civil war.

Cuban sources in Miami admit their success may hang on this factor more than any other. For them, in this respect, the invasion has been a calculated gamble.

Should the number of defections from the ranks of Castro's supporters be far less than the rebels anticipate, the invasion could fail.

But this would not necessarily save Fidel himself. He

is rapidly becoming a liability to the Communists who now dominate the island and it is in the eyes of the rest of Latin America. For the Communists, it is important that Cuba get economically organized so that it can present a better face to the rest of Latin America as a revolt against the Yankees supported by a solicitous Moscow.

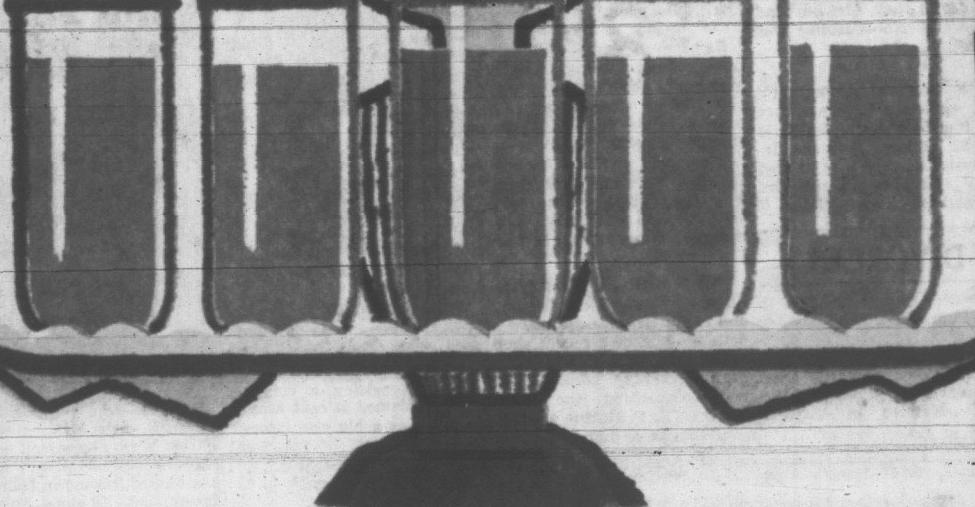

Castro's noisy blundering, which in a period of two years has helped bring the island's economy to confused wreckage, has got in the way of the Communists.

Cuba has received Soviet bloc help and this help now is on trial in the eyes of the rest of the world.

SOLUTION FRIDAY

IT HAPPENED LAST NIGHT

By EARL WILSON

NEW YORK—Judy Garland "I've had touches—but \$2 and husband Sid Luft quietly million," replied Ace. "How visited President Kennedy at ever, I'll go half, and am sending my check for \$1 million, predated slightly, to 2061. If it bounces, I'm sure you can always raise the money—maybe from some last."

"I hope it isn't like my last visit," Judy said, en route. "It was the day America and Italy went to war. Franklin D. Roosevelt was pretty busy..."

"Did you meet the nation's First Lady this time? somebody asked Judy. Her husband answered: "No—Caroline was away."

Peter Lawford wrote to TV writer-producer Goodman Ace that the Democratic deficit is still \$2 million, that the inaugural Gala tape is to be sold to TV and asking permission to resell his contributions.

DIVORCES

Divorces were granted in B.C. Supreme Court Monday to:

Margaret Alice Middier, 1860 Adamie Street, Victoria, from Norman Bruce Middier of Victoria. Married in Victoria, 1947.

THE MIDNIGHT EARL:

Martha Raye's dir. Melody and chum Barbara Mathews both opened a record shop in Beauty City... Joe DiMaggio's spending some afternoon's watching the stock ticker at E. F. Hutton and Co.

Lloyds of London would

not give storm insurance to the Lido Beach Golf Club golf course—they paid off heavy on Hurricane Donna.

Producer Joe Levine explains how he copes with tempestuous actresses: "Talk softly and carry a big contract"... Maurice Chevalier'll play an Italian parish priest in his next film, "Jessica."

Richard Rodgers delivered this poignant remark at a meeting of the Eleanor Roosevelt Cancer Committee planning a salute to Gen. Omar Bradley, May 30. "There were two partners and best friends. Both had the same disease but only one remains. The only way to stop that disease is through research. That is why I'm here."

WISH I'D SAID THAT:

News are like seeds—you don't need them, but they come with the tomato.

A man pricing a compact car complained it cost almost

as much as a big one. "Sure," said the dealer. "If you want economy—it's expensive..."

That's earl, brother.

Earl Wilson

do you skip or skimp?

Filled With Sediments

Now a new geosyncline formed along the eastern ridge of the new mountains. Silt and sediments dust and debris washed down from the western slopes and flowed in from the plains to the east. There was enough sediment in this geosyncline to cover all of

North America with 700 feet of top soil. Then the old story was repeated.

The soft sediments were turned into hard rocks and the massive layers were pushed up into a ridge of growing mountains. The same story as being retold along the western edge of South America. About 100,000,000 years ago, two sister ranges, the Rockies and the Andes, were beginning to grow. Central America also had been swamped by a shallow sea. As the Rockies and the Andes grew, the Panama Ridge lifted up and North and South America linked hands with a strip of new land.

The story of the great Rockies is but one step in the long upheaval of the Cordilleran belt. Through millions of years, the vast ridges moved 1,000 miles eastward from the Pacific. As the Rockies formed, this time on the western rim of the belt. Its sediments were crushed and folded to form the Coastal Range which dips its feet into the Pacific.

The story of the great Rockies is but one step in the long

upheaval of the Cordilleran belt. Through millions of years, the vast ridges moved 1,000 miles eastward from the Pacific. As the Rockies formed, this time on the western rim of the belt. Its sediments were crushed and folded to form the Coastal Range which dips its feet into the Pacific.

Orson Welles'll lecture in European colleges on the psychology of acting. First stop: University of Milan... Comic Shelley Berman and Garson Kanin are writing a B-way show for Shelley to play in next season... Vincent Price loaned \$240,000 worth of his painting for his new movie, "Master of the World."

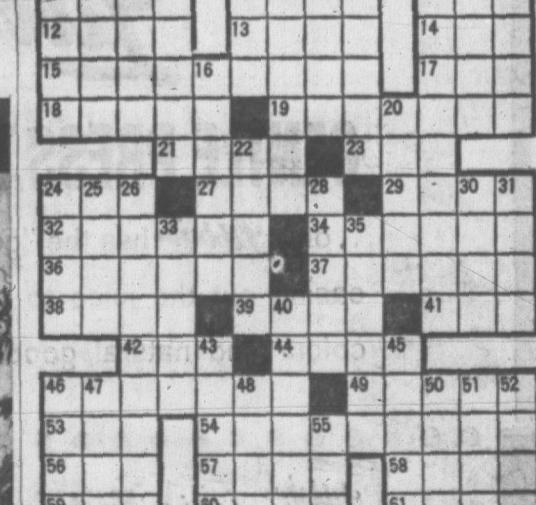

TODAY'S BEST LAUGH: This is the anniversary of Hans Christian Anderson—till the coming of income tax the world's greatest spinner of fairy tales.

Richard Rodgers delivered this poignant remark at a meeting of the Eleanor Roosevelt Cancer Committee planning a salute to Gen. Omar Bradley, May 30. "There were two partners and best friends. Both had the same disease but only one remains. The only way to stop that disease is through research. That is why I'm here."

HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other instructive prizes? Then ask Andy. Andy will answer questions submitted by child readers and those who submit the questions he selects will receive such day prizes.

The youngster who asks the first question answered each day receives a 20-volume set of the World Book Encyclopedia, and of the second question a Hammond Atlas or Globe.

Address your questions to "Ask Andy," Victoria Daily Times.

Andy sends a complete, 20-volume set of the World Book Encyclopedia to Jimmy Van Surksum, age 11, of Alvord, Iowa, for his question:

How were the Rockies formed?

The great Rocky Mountains were there 10,000 years ago. Two million years ago they were somewhat higher and the glaciers of the Ice Age were beginning to gouge out some of their valleys and whittle down some of their rugged peaks. They were there 10,000 years ago. Yet, as mountains go, the great Rockies are but teenagers. The Appalachians of New England are 200,000,000 years older.

The Rockies are part of an aged-old system of mountains called the Cordilleran belt. This name comes from an old Spanish word for cord or string and geologists use it to describe the main mountain axis of a continent. The Cordilleran belt of the Americas includes the long spine of western mountains all the way from the Arctic Circle down to the tip of South America.

Such a trough in the earth's crust is called a geosyncline.

As debris collects on its floors,

There was a capacity attendance at the session held in St. Andrew's Kirk Hall. Also featured was an interesting vocal contest of solo performer standard. This was for a concert group of three contrasting pieces.

None of the three entrants—Elinor Senior, Peggy Walton Packard and Margaret Dixon—had made completely satisfactory choices according to adjudicator Timothy Turner, and none of the three had sung more than one of their songs really well.

Mrs. Senior was commended for having sung in three languages—Italian, French and English—but Mr. Turner would have liked to have seen contrasts in period as well as in mood from the other two competitors both of whom had chosen all 20th century compositions.

ONLY ONE MARK

Winner was Mrs. Packard with 83 marks. Her songs were "Floods of Spring," Rachmaninoff, "Green River," Carpenter, and "Love Went a' Riding," Frank Bridge. However, only one mark separated the three, Mrs. Senior having 82 and Mrs. Dixon, 81.

Only other item on the program was performance of a Bach Prelude and Fugue by Philip Adamson, who received an 86 for his performance earlier.

Three finalists in the women's oratorio class will be heard tonight. They are Margaret Thomson, Peggy Walton Packard and Wendy Cox.

KEEN CONTEST

A close contest between four entrants in the male voice oratorio class resulted in Ian Wilcox placing first with 88 and Norman Tyrrell tying with C. W. Roberts for second with 87.

Class 32, Low Voice—1. Marion Britt, 81; 2. Carole James, 80; Class 34, Girls' Sacred Solo, 25 to 30—Karen McMaster, 80; Sandra Miners, 86; 3. Eleanor Graham and Lynda Burley, 85; Class 35, Boys' Chorus—1. Michael Chapman, 88; 2. Gary Hunt, 85; 3. Roy Silver, 83; Class 7, Light Soprano (A)—1. Marion Lark, 80; 2. Ann Burridge, 88; 3. Sally Seymour, 85.

Piano Classes, Class 32, 27 and under—Bach—1. Carol Brown, 85; 2. Genevieve Saville, 85; 3. Cheryl Morris, 87; 2. Toni Adamson, 88; 3. Gail Wall and Bruce Kelly, 85; Class 33 and under—1. Cheryl Morris, 86; 2. Mary McMaster, 84; 3. Beverley Hynd, 88.

Class 34, Performers—Bach—1. Phillip Adamson, 88; Sharon Douglas, 83; Class 35, 11 and under—Bach—1. Jacqueline Court, 88; 2. Rosemary Fryer, 87; 3. Cheryl Morris, 85; Class 36, 12 and under—Sonata—1. David Foster, 88; 2. Rosemary Fryer and Charlotte Hick, 87; 3. Gedwin Daniel; Class 37, 13 and under—1. Paul Lovric, 87; Judith Gray, 85; 3. Shirley Webb, 84.

B.C. Ferries Slow 'Copter Application

VANCOUVER (CP)—Okanagan Helicopters' shareholders were told here Tuesday at the company's annual meeting the firm has been awarded a contract for an aerial oil survey in the Arctic.

Glen McPherson, president, said two Sikorsky S-35 craft and a larger Sikorsky S-62 will be used, operating out of a base at Resolute Bay.

"The survey will take 3½ months and will extend close to the North Pole."

Mr. McPherson also said the company was moving slowly on its application to carry passengers between Vancouver and Victoria. He said economics of the plan required careful study in view of the competition from B.C. government ferries.

Ask New Cabinet Job

WASHINGTON (Reuters)—President Kennedy sent draft legislation to Congress Tuesday calling for the establishment of a new cabinet-rank department to deal with urban affairs and housing.

GARY COOPER
... Hollywood buzzes

How Sick Is Actor Cooper?

HOLLYWOOD (AP)—This question buzzed through Hollywood today following Monday's academy awards: Is Gary Cooper seriously ill?

Rumors about Cooper's health arose after actor Jimmy Stewart, near tears, accepted an honorary award for the lean actor, saying: "We're proud of you, Coop; all of us are tremendously proud."

Cooper was presented an Oscar for his 30 years in movies. Cooper's wife said her husband couldn't appear at the awards ceremony because he was in traction for a pinched nerve in the neck.

Cooper's doctor refused to comment on the actor's condition.

Last April, Cooper underwent prostate gland surgery and the following month he was operated on for an intestinal disorder.

134 CITIZENS IN 'VILLAGE' BY YEAR END

Victoria Kiwanis Village will house 134 senior citizens by the end of 1961. Victoria Kiwanis Club was told Tuesday.

The Village Society president, Reg Harris, said the population of the village will increase from its present 84 tenants once the first two phases of the Kiwanis Villa are completed September 1.

Most important point in the project, he said, is that it will provide low-cost accommodation indefinitely.

"Similar villages have been built and are being built because we have shown the way," said Mr. Harris. "In British Columbia alone, there are nine or 10 Kiwanis Villages."

"How much has been totally invested and how many will benefit directly or indirectly because of this work will never be known," he said.

Similar villages have been built and are being built because we have shown the way," said Mr. Harris. "In British Columbia alone, there are nine or 10 Kiwanis Villages."

Canadians Unharmed

OTTAWA (CP) — No harm has come to any Canadians during the current struggle in Cuba, reports said Monday night.

Emergency plans have been made to evacuate members of the Canadian colony should the necessity arise.

External affairs department records show there were 265 Canadians in Cuba as of April 1. Of these 12 were on the staff of the Canadian Embassy in Havana and 160 were missionaries.

Pro-Castro Rioters Boil in S. America

MEXICO CITY (UPI) — Violent and massive anti-American and pro-Castro demonstrations broke out Tuesday night throughout Latin America. One student was killed in rioting at Caracas, Venezuela, and 12 were injured. The student was the first fatality of the widespread violence.

PROTEST CUBA 'INVASION'

Japanese Leftists March on Embassy

TOKYO (UPI) — About 7,000 to "oppose (President Kennedy's) invasion of Cuba."

Japanese leftists protesting what they called the United States' "invasion" of Cuba marched on the U.S. Embassy in Tokyo today, but 500 riot policemen headed them off.

The jeering demonstrators, identified as Communists, left-wing unionists and Zengakuren students, carried large portraits of Cuban Premier Fidel Castro and called on the new U.S. ambassador to Japan, Edwin O. Reischauer,

to stage a Cuban sympathy parade next Monday.

The demonstrations coincided with the arrival of Reischauer, a former Harvard professor.

Bargain-Basement Politics, Socialism Hit by Manning

OTTAWA (CP) — Social Credit offers the Canadian people an effective alternative to socialism and the failure of the old-line Conservative and Liberal parties, Premier Manning of Alberta said Tuesday night.

In an address to a public meeting here, he decried what he called the trend to "bargain-basement" politics while suggesting that acceptance of socialism would lead to complete statism with consequent loss of individual freedom, responsibility and initiative.

What was needed was a modern, objective approach which would get at the root causes of the country's problems. Social Credit offered a philosophy of enlightened government, a modern adaptation of democratic principles.

The movement had been grossly misrepresented as the "funny money" party.

LONG IN OFFICE

"No Social Credit government ever advocated turning

IN THE MATTER OF THE ESTATE OF ELIZA WOODROW, deceased, of 69 Lutine Avenue, Saanich, B.C.

NOTICE IS HEREBY GIVEN that certain persons having claims against the estate of the above-named deceased, are hereby required to file such claims to the executor, B.C. 111 Government Street, Victoria, B.C., by the 16th day of May, 1961, after which date the said estate will be distributed among the persons entitled thereto having regard only to the claims of which then the Executor has notice.

MONTRAL TRUST COMPANY, Executor.

By its Solicitor, JESSIE F. GOUGE.

NOTICE TO CREDITORS

ALICE EDWARD SMITH, formerly of 4158 Holland Avenue, Victoria, B.C. Deceased.

Notice is hereby given that creditors and others having claims against the man who, as Alberta's Social Credit premier since 1943, has held office longer than any of the present provincial premiers.

But Social Credit did say that for every \$1 worth of goods produced from the development of resources it was the duty of government to see that \$1 worth of purchasing power was put into the hands of the people who produced it.

But today there was no buoyancy in the economy.

DEBT INCREASES

Debt was pyramiding at an alarming rate. There was a rapid increase in the costs of government so that now more than 40 per cent of total Canadian income was being collected by all levels of government.

on the printing presses and rolling out the money," said the man who, as Alberta's Social Credit premier since 1943, has held office longer than any of the present provincial premiers.

But Social Credit did say that for every \$1 worth of goods produced from the development of resources it was the duty of government to see that \$1 worth of purchasing power was put into the hands of the people who produced it.

ISLAND DIGEST

Victoria Daily Times WED., APRIL 19, 1961 31

V.I. ROUNDUP

Bigger Park For Gabriola

The B.C. government has taken the first step toward building a bigger park on Gabriola Island. The park now has been reclassified from Class C to Class A by a cabinet order.

This means that instead of coming under a local parks board, the park will be administered by the Recreation Department.

It will be called Gabriola Sands Provincial Park.

Parks branch officials said the 34-acre area now has picnic tables and toilet facilities. There are plans for much more expansion, but not this year, they said.

DUNCAN—A Victoria traffic signal system may become the model for a similar installation in Duncan.

Mayor Jack Dobson said he had been impressed by the traffic lights and signals near the Legislative Buildings and Empress Hotel in Victoria.

"This could be the answer to our traffic problem at Canada Avenue and Trunk Road in Duncan."

The Duncan intersection is a bottleneck during heavy traffic and a puzzle to engineers trying to remedy the situation.

DUNCAN—W. R. McConach has been given approval by city council to extend a water line for 1,000 feet east on Sonnen Road to service six lots in a new subdivision. Six-inch main is to be installed to city specifications.

DUNCAN—A stage show by the Lake Cowichan Choral Group that recently played to packed houses in that community will appear in Duncan Saturday night.

"Broadway Showcase," a musical revue featuring 43 songs and dances performed with colorful costumes and sets, will be staged in the Cowichan High School auditorium at 8 p.m., under sponsorship of the Duncan Kinsmen Club.

All proceeds will go to the club's health centre project.

Soloists include Alan Vance, Elsie Kirby, Fran Bonhamer, Jim Patterson and Dorothy Morrow. Producer is prize-winning amateur actor Adrian Pecknold.

NANAIMO—Plans have been completed for what organizers believe will be the "most spectacular" Empire Day celebrations ever held here.

The celebrations, May 19 to May 22, will include all sorts of events from a bed-pushing race to a bowling tournament.

As a prelude to the festival, the Miss Nanaimo beauty contest will be held May 13-14.

NORTH COWICHAN—Municipal public works superintendent Perry Ross and his assistant, Don McCool, have been appointed municipal fire prevention officers.

They will be responsible for signing and issuing fire permits throughout the municipality during the summer fire season.

10 Bodies Recovered From 'Copter Wreck

COLD LAKE, Alta. (CP)—The bodies of the 10 victims of Monday night's crash of an RCAF H-34A Sikorsky helicopter were brought here Tuesday to the air force base.

The pilot and only survivor of the crash, Flt-Lt. J. L. Jeffs of Winnipeg and Nanaimo, is still in shock, air force officials said.

They said the craft apparently crashed from about 500 feet when the engine failed. The helicopter disintegrated when it hit the ground and immediately burst into flames. It was carrying a full load of fuel.

Flt-Lt. Jeffs is believed to have escaped through a sliding glass panel at the side of the cockpit. The other 10 passengers were trapped in the belly of the craft where the passengers are carried.

AIRMEN—Three servicemen were killed in the crash—LAC M. H. Chapman of Winnipeg, a crew member aboard the helicopter; Sgt. Dan Snow and LAC G. Compton, both members of the 2nd Construction and Maintenance Unit of Calgary.

WE'RE ON OUR ANNUAL WORRY-FREE HOLIDAY

We're taking the kiddies to visit Grandma at Prince Albert. It's so easy by train, especially with CN's low family rates. Last year my husband and I went to Portugal. The next big trip we're planning is a CN package tour of Quebec. Our CN agent sees to everything for us. When we went overseas he arranged passports, hotels, meals, sightseeing tours and all our tickets and even helped us enjoy a side trip to Spain thanks to their Go Now—Pay Later Plan. I think modern trains are fun, don't you?

PUBLIC MEETING IN MAY

Two Groups Study Seamen's Home

NANAIMO—A joint study for establishment of a sailor's mission here is being undertaken by the Salvation Army and the Navy League of Canada.

The original idea for such a project came from the Local Council of Women a month ago, when members mentioned the need for a recreation centre to serve visiting seamen.

Mrs. Martha Creighton, past president, reported to the council this week the two national organizations are preparing to call a public meeting some time in May for discussion of the proposition.

Increasing deep-sea trade on the Island, since the industry calls not only for ships to take goods away, but also for

the delivery here of raw materials used in pulp manufacture.

There are recreation centres

for seamen at Victoria, Chemainus and Port Alberni, where ocean-going ships have been calling regularly for years.

There has been a considerable impetus to shipping here since construction of Harmac pulp mill and other pulp mills

ON VALIANT'S NEW LOW PRICE!

How come? 'Cause Valiant's prices this year start \$144 lower than last! And Valiant gives you a combination of features most other compacts haven't even got. No, not even at extra cost. Like what? Like Torsion-Aire Suspension that carpets rough roads and cottons to corners as though it ran on rails. Like a 170-cubic-inch

engine. Put your foot down—gently—and go! In addition, you get Unibody construction to hold off rattles... seven dips and six sprays put the damper on corrosion. What other compact at Valiant's low price offers so much? No other! For looks and liveliness, long life and low price, it's Valiant for 1961.

Builders Sue Union On Strike

(Times News Services)
VANCOUVER — A major British Columbia construction firm, Perini Pacific Ltd., is suing the International Union of Operating Engineers (CLC) local 115, and 18 members for damages as a result of a work stoppage on the new Port Mann Bridge last September.

The company alleges the union has violated the province's Labor Relations Act.

It contends its agreement with the union of Feb. 12, 1959, is no longer binding because of the alleged wrongful acts and asks for an injunction which would restrain picketing at the Port Mann bridge project.

'I'll Go Too'

NEW WESTMINSTER — Mayor Beth Wood, who earlier this month urged married women to quit their jobs in order to alleviate the unemployment situation, said Tuesday she would be willing to resign her post if the women complied with her request.

Mayor Wood told a service club meeting she was quite prepared to face up to the problem herself.

"If we get the married women back in their homes, I promise you I'll go with them," she said.

The mayor added that she would exclude any family head or a woman who needs the money to keep her family together.

Old Crime

VANCOUVER — Police Tuesday charged a 35-year-old man with the kidnapping of a city engraver 12 years ago.

The man, William Pankow, alias John Romanuk, was remanded until Monday when he appeared in police court before Magistrate Oscar Orr. Pankow pleaded guilty to the charge.

The engraver, Ernest Walter Conduit, 66, was held prisoner in chains in a rented Vancouver house by hooded kidnappers from Jan. 5 to Jan. 12, 1949.

Police said the kidnappers tried to compel the elderly engraver to make plates for counterfeiting Canadian money.

'Death Throes'

VANCOUVER — Attorney-General Bonner said Tuesday new incendiarism in the Kootenays is the death throes of fanaticism.

He said in an interview the most recent incidents are the work of a handful of dissidents making a last-ditch bid for influence in their changing community.

He expressed confidence that the few troublemakers cannot change the peaceful path the majority of Doukhobors, including the Radical Sons of Freedom sect, have taken in the last two years.

Seized Papers

VANCOUVER — An RCMP corporal testified in police court Tuesday he seized more than 100,000 documents entitled "profit opportunities await you in the Yukon" from the offices of Mount Baker Investments Limited last December.

Cpl. B. C. Johnson said the seized material filled 94 small cartons. The sheets were headed "Yukon — new bonanza of untapped mineral wealth" and each was addressed, he said.

The testimony was heard at the preliminary hearing of fraud conspiracy charges against George Caldough, Roland Smith, Leonard Udell, Mount Baker Investments Limited, Eagle Plains Explorations Limited, Eagles Plains Developments Limited and Great Northwest Investments Limited.

BCE Wins Case

VANCOUVER — A temporary injunction preventing the B.C. Electric from applying to the Public Utilities Commission for permission to increase its power rates to the Macmillan, Bloodell and Powell River Ltd. plant at Powell River was dissolved in B.C. Supreme Court Tuesday.

The injunction was the result of a dispute between the two major industrial concerns over the expiry date of a power contract entered into in 1956.

Mr. Justice J. G. Ruttan ruled in favor of the BCE on the basis on the contract's wording.

If Back Aches Try A Kidney Housecleaning

Do you suffer from Backache, Cramps, Urinary Frequency or Burning, Itching Passages, Strong Cloudy Urine, pressure over the bladder, and burning during urination? Bladder Irritation? In such cases the very first dose of CYSTEX usually stops the work immediately. CYSTEX usually relieves the irritation. Helps remove certain irritating non-specific germs in acid conditions. 2.5 gm. tablets. Each tablet relieves the burning due to colds. By relieving and calming irritated bladder tissues it helps relieve the urge to urinate day and night. Get CYSTEX from your druggist today. Feel better fast.

EATON'S Brings You from New York the "Pixie Hat"

The Very Latest in Spring Millinery!

Just arrived at EATON'S... the exciting new millinery creation from New York! The "Pixie Hat" designed from looped organza and crocheted straw, stretches to fit most head sizes. And what a delightful choice of colours... lilac, orange, yellow, romance, pink, blue, turquoise, beige, white, mint. 8.95 Each

100 PRIESTS THROWN INTO HAVANA 'JAILS'

ST. PETERSBURG, Fla. (AP)—A thousand civilians, including 100 Roman Catholic priests, have been arrested in Havana and the Sports Palace and a downtown hotel have been converted into prisons, an anti-Castro radio station reported today. The report came from a station off the coast of Honduras.

NIKITA WARNED

'Keep Out'
—JFK

WASHINGTON (CP)—President Kennedy has bluntly warned Soviet Premier Khrushchev to keep out of the Cuban fight or face the prospects of a Caribbean showdown with American troops.

In a diplomatic exchange bristling with threats and challenges, Kennedy Tuesday night threw his moral support behind the Cuban rebels and rejected Khrushchev's demand that he attempt to halt the invasion.

Stating again that the U.S. has no intention of military intervention in the Cuban battle, Kennedy said nevertheless that Americans do not conceal their admiration for Cuban "patriots" who are trying to overthrow Fidel Castro.

REJECTS CLAIM

Denouncing Khrushchev's claim that eventually the world will turn completely communist, Kennedy maintained the world revolution is towards freedom and the U.S. government "can take no action to stifle the spirit of liberty."

Khrushchev had warned that if the invasion is not stopped, "we shall render the Cuban people and their government all necessary assistance in beating back the armed attack on Cuba."

Kennedy shot back: "In the event of any military intervention by outside force, we will immediately honor our obligations under the inter-American (Latin) system to protect this hemisphere against external aggression."

To qualified Western observers stationed in Washington, the atmosphere between the U.S. and Russia reminded them of the cold war fury that followed discovery of an American U-2 spy plane in Russia and ended in the shattered summit conference in Paris last year.

RESIGNS

Former Manitoba premier Douglas Campbell resigned today as leader of the Manitoba Liberal-Progressive party, leaving the way open for favored candidate Gildas Molgat to succeed him.

Missing War Paper Stirs U.K. Spy Talk

LONDON (AP)—The disappearance of a top secret admiralty document stirred suspicion at Scotland Yard today that a British spy ring may have struck again.

The missing paper detailed new methods of underwater warfare. It vanished from the safe of an unnamed engineering firm working under contract for the admiralty, police sources said.

The case has been handed over to a special anti-spy section of intelligence officers, created since the recent British spy trial.

At this trial five Soviet agents were sentenced to lengthy jail terms for stealing navy secrets.

The archbishop said this is an unhappy state of affairs which can perhaps be resolved

Road Deaths Soar 85%

B.C. traffic deaths soared a shocking 85 per cent in March, it was learned today.

The unusually high total of deaths for the month was 22, compared with 12 last year, said an official of the Motor Vehicle Branch.

So far this year there have been 74 deaths, an increase of 38 per cent over the three-month tally of 53 last year.

The problem for the U.S. and Russia in Cuba is a problem o' gamespace: How to win without actually cheating.

The cluster lights are just one more global problem.

Can't tell who's ahead in Cuba, but I bet it ain't the people.

NEW PRAYER BOOK INTRODUCED

New prayer book of the Anglican Church of Canada was used here for the first time today at Holy Communion service in Christ Church Cathedral preceding opening of 59th session of the Diocesan Synod of British Columbia. Discussing changes in the prayer book are (from left) Bishop Michael Cole,

man of Pender Island; Archbishop Harold Sexton, and Bishop Henry D. Martin, formerly Bishop of Saskatchewan, now retired in Victoria. Sessions of the Synod are being held today and Thursday in Christ Church Memorial Hall. (Times Photo by Bill Halkett.)

'Can't Ignore Teeming Millions In Red China' Says Archbishop

BY NORMAN CRIBBENS

Archbishop Harold Sexton today exploded three controversial proposals in his charge to the 59th session of the Diocese of British Columbia, meeting in Christ Church Memorial Hall.

1. He urged the admission of Red China to the United Nations "without delay."

2. Suggested the Anglican Church give "sympathetic consideration" to the re-marriage in the church of deserving divorced persons.

3. Called for "proper" religious instruction in B.C. public schools and criticized the Chant report on education for offering no constructive proposals in this regard.

Discretionary Power Needed

On divorce, the archbishop through an exchange of views with the Episcopal Church in the United States, which has an increasing number of clergymen disturbed over the rigid attitude of our Canadian church on the vexed question of re-marriage during the lifetime of a former partner.

He urged the World Council of Churches to make strong representations to the leaders of nations for the abolition of nuclear weapons.

Archbishop Sexton referred to British Columbia as "the most backward province in Canada" in the matter of religious instruction in public schools.

He said the Chant Report on education "has little to say of a constructive sort about religious instruction and observation, due probably to the fact that the members of the commission had not been drawn from further afield than B.C. itself."

The duty of imparting religious knowledge is incumbent upon all who believe, (in religion) whether parents in the home or educators in the schools.

"Generally speaking, the clergy are sympathetic towards such cases and frequently arrange for a second marriage at the hands of a friendly or well-disposed minister of another body, who is not subject to the inhibitions imposed upon Anglican clergy."

The archbishop said this is an unhappy state of affairs which can perhaps be resolved

MISSING

Included among number of U.S. newsmen in Cuba unheard from within the last 24 hours and recently arrested by the Castro forces is Robert Berrellez, correspondent for the Associated Press. (See story page 30.)

IN OTTAWA

Indian Official Killed

OTTAWA (CP)—The first secretary at the Indian high commissioner's office here was shot and killed today.

Police identified the victim as K. Sankara Pillai, about 39.

They said he was sitting at his desk on the second floor of the high commissioner's office on downtown MacLaren Street when a man walked in about noon and shot him with a rifle.

The shooting was reported a few minutes later to a RCMP office about eight blocks away by a man who was detained there and subsequently turned over to city police.

ROA CHARGES:

U.S. Pilot Shot Down In Bomber

UNITED NATIONS (UPI)—Cuba charged in the United Nations today that "an American plane, manned by an American pilot, coming from an American base" was shot down this morning by Cuban anti-aircraft defences.

Cuban Foreign Minister Raul Roa identified the pilot as Leo Francis Bell of 48 Beacon Street, Boston, Mass.

In Boston, reporters found that an address given by the Cuban radio is an apartment house. Tenants said they could recall nobody by the name of Bell.

Roa told the 99-nation committee the U.S. pilot dropped a number of bombs on the civilian population and military objectives.

The pilot was killed and his body is in possession of Cuban authorities, Roa said.

This is another flagrant proof of U.S. aggression.

Monday night, after a telephone call from Oswald Dorticos, Roa told the committee he heard evidence that regular U.S. forces from Guantanamo Naval Base were participating in the island invasion. He offered no further proof nor did he return again to this charge which was immediately picked up and broadcast by the Communist New China News Agency.

No delegate offered support for the U.S. position as the committee pressed its Cuban debate. Even Britain and France, Washington's main allies, were notably quiet.

Iraqi Ambassador Adnan Pachachi took the United States to task for insisting it had no part in the preparation or execution of the invasion.

The committee was not ready to act on Russia's demand for UN condemnation of the United States.

Cuban officials announced the arrest of McNair March 21 and said he and four Cubans were caught trying to land an arms-laden motor launch 30 miles west of Havana.

DIEF BACKS U.S. STAND

OTTAWA (CP)—Prime Minister Diefenbaker said today Canada cannot remain indifferent to the danger to the Western hemisphere posed by Russia's approach to the present situation in Cuba.

In a statement to the Commons, he said Cuba, "like so many small and defenceless countries," has become a focal point of the struggle between Communism and the free world.

The statement, made in reply to a question by Opposition Leader Pearson, seemed to indicate a marked change in the Canadian government's policy towards Cuba.

Previously, Canada often had appeared reluctant to accept the American view that the Cuban revolution had turned Communist.

FINN WINS MARATHON

BOSTON (CP)—Eino Oksanen, Finnish runner, won the 65th Boston marathon today. It was his second victory in this event in three years.

ADVISERS JOIN ROYAL ARMY

U.S. 'Beefs Up' in Laos

WASHINGTON (UPI)—The United States has decided to establish a regular military advisory group in Laos and put American advisers with front-line units of the Royal Lao army, it was learned today.

The decision means putting the 250-man U.S. "Programs Evaluation Office" in Laos back into military uniforms, raising its strength to about 300 men and trying to inject more military know-how and backbone into the reluctant Lao forces.

The pro-western Lao government formally asked U.S. Ambassador Winthrop Brown earlier today in Vientiane to establish a regular U.S. military advisory group, and Washington immediately authorized agreement, according to a source.

Officials acknowledged that

HOWARD ANDERSON
...U.S. protests deaths

50-Mile Advance Reported

By UPI

Cuban rebels said today they had swept 50 miles to the east from their invasion beachhead, linked up with rebel guerrilla forces operating from the Escambray Mountains, and successfully completed phase one of their attempt to overthrow Premier Fidel Castro.

At almost the same time the Castro government announced the invasion force in southern Cuba would be wiped out within hours.

A government communiqué said its forces had shot down four planes flying bombing missions, including one piloted by an American who was killed in the action.

Rebel planes struck at Havana and Cuban air force headquarters.

Communications from the two sides this morning agreed only in indicating a climactic phase may have been reached in the widening war only 90 miles off American shores.

WAVE OF TERROR

The claims and counter-claims of intense military activity at the front followed news that Castro had unleashed a wave of terror aimed at preventing internal uprising.

Two Americans and seven Cubans were executed. Mass arrests took place. The prisoners included American staff correspondents of United Press International and Associated Press.

The reports of the rebel advances were made in a communiqué issued from New York by the Cuban Revolutionary Council which also said:

• The invasion force was under continuous attack by Soviet-built MIG fighter planes, heavy tanks, and artillery.

• Rebel guerrilla troops have infiltrated north from the invasion area in Las Villas Province into Matanzas Province.

• Forces advancing to the east in a little over 48 hours since the start of the invasion had reached a point north of Cienfuegos, a port on the southern coast 50 miles from the invaders' beachhead.

SUPPRESSION WORKS

A leading Cuban exile source indicated that Castro's campaign of suppression during the night may have met with success.

The source said there was "no significant sign so far" of mass defections by the popular. But he said many persons were going into hiding to avoid being pressed into military service.

According to the source there was "terrible fighting" going on with rebels at least one area pinned down by a heavy cross-fire from tanks.

"But we are holding our own," he said.

With no independent observers able to report on the situation at the front or elsewhere in Cuba, confusion clouded the actual status of operations.

APRIL SNOW IN VANCOUVER

VANCOUVER (CP)—Up to two inches of snow fell in Vancouver overnight. The weather office said it is not unusual for snow to fall in April.

Campbell River and Comox on Vancouver Island had a four-inch fall Tuesday.

ADVISERS JOIN ROYAL ARMY

U.S. 'Beefs Up' in Laos

WASHINGTON (UPI)—The move might be seized upon by Russia and called a "provocation" or used as an excuse for further stalling by Moscow on the western-proposed trade.

However, it was said that the

Kennedy administration concluded that Russia will have to be shown that the west means business when it says it will not permit further nibbling away of Laos by the Soviet-armed rebels.

LONDON (UPI)—Britain is asking the Soviet Union to agree to an immediate cease-fire in Laos Thursday, Foreign Secretary Lord Home said today.

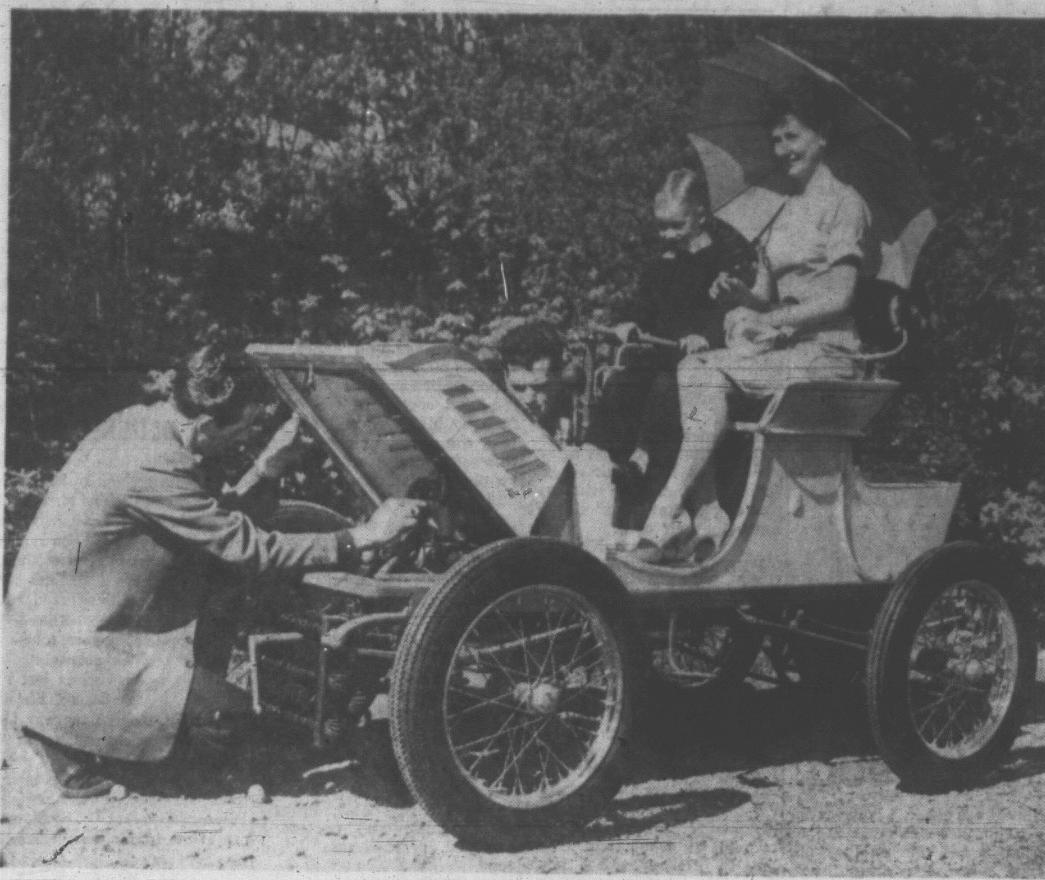

Lord Home told the House of Lords the cease-fire request is part of a "timetable of action" being submitted to the Soviet government.

The timetable also includes a meeting of the International Commission on Laos and its dispatch to that country to verify the cease-fire. This commission comprises Canada, India and Poland.

Next on the timetable, Lord Home said, is a May 3 meeting of the 14-nation conference on Laos.

Home said he "hoped very much" that the Soviet Union would agree to the timetable.

'TIMETABLE' PROGRAM PROPOSED BY BRITAIN

WHAT IS IT?

If you can positively identify this shining but ancient example of automotive power it could win you \$100. Prize money is being put up by the Quarter Milers' Club as part of its two-day show, "Autorama

MONTE ROBERTS

Leave us leave the cluster light controversy temporarily (and reluctantly) to comment on another aspect of the ever-changing face of Victoria streets.

I refer to a phenomenon which is occurring so gradually—like an incoming tide on a calm day—it may have escaped your notice.

Namely, the replacement of untidy, debris-littered, scraggly strips of green grass, between sidewalk and curb, with smooth, level, antiseptically clean asphalt.

This development is occurring, apparently on a planned basis, in many parts of the city.

Where once assorted types of grasses grew, and even a daisy or a dandelion bloomed to scatter its seeds to the four winds, now there is a geometrically even stretch of black-top.

Or, in some instances, cement.

In either case, the citizens of Victoria should be aware of what is going on, and should make it a point to rush into the streets, shouting and applauding, each time they see the shovels bite into the sod, and hear the joyful putty-putty of the cement mixers.

Citizens should be ever grateful for progress.

And there is no progress quite like the progress evinced when unsightly grass is replaced by the more modern concept of asphalt. Or cement. Or black top.

The reason I am drawing this to your attention is, if you react properly, and express joy at the change, it is possible it will spread throughout the city.

Instead of oddly-formed trees, scattering their blossoms on the street in the spring and desecrating the landscape with their leaves in the fall, concrete monoliths would be much more practical.

Concrete monoliths do not cause a nasty mess upon the streets, and, like asphalt boulevards, need no cutting nor trimming.

It is to be hoped this gradual replacement of grassy strips between sidewalks and curb will be followed by the replacement of grassy strips everywhere, and eventually by the replacement of those messy trees.

TOPICS OF THE DAY

A thief stole property valued at about \$500 from two rooms at the Empress Hotel sometime Tuesday, city police were told.

The house detective said two rooms on the third floor yielded U.S. and Canadian currency, camera, liquor, razor, perfume, wrist watch and ring set sometime between 10 a.m. and 3:30 p.m.

Mayor Percy Scurrah today announced appointment of B.C. Electric vice-president W. C. Mearns as chairman of the advisory parking committee.

First meeting for the eight-man task force was scheduled for later in the day to begin research the city hopes will lead to speedy recommendations on parking garages.

Meeting of Oak Bay Ratepayers' Association will be held at 8 p.m. today in Oak Bay Municipal Hall, Oak Bay Avenue.

Some Oak Bay residents will find themselves without water for six hours beginning midnight tonight.

Oak Bay council announced the water supply for houses along Oak Bay Avenue from Foul Bay to Monterey, and in Wilmet Place and Yale Street, will be cut off between those hours.

Reason is to carry out work in order to improve the water supply during the summer months, a spokesman said.

The Victoria Public Library Board Tuesday dropped a proposal to establish a branch library in Saanich until "conditions are more favorable."

The proposal originated from Saanich council earlier this year.

Council suggested the establishment of a branch library on the new Dominion Construction shopping centre on the east side of Douglas near the Trans-Canada junction.

Dog Stolen In Burglary At Metchosin

A "dognapper" is blamed for the burglary Tuesday of a Metchosin district home systematically ransacked while the owners were at work.

Besides an estimated \$200 worth of personal property including silverware and an heirloom ring listed as stolen is three-year-old purebred chihuahua Skippy, raised from a pup by Mr. and Mrs. H. R. Brereton, 734 Latoria.

The break-in, discovered at about 6 p.m., was reported to Colwood RCMP, who are investigating.

Mr. Brereton said the house was entered after a rear door pane was smashed. "They ransacked the whole house... every drawer and cupboard was opened, but neatly closed again," he said.

And Skippy—a timid but fully trained, short-haired, tan-colored dog weighing 10 pounds—was gone.

The Breretons believe whoever took the dog may not appreciate Skippy's sensitivity. Even though he is large for a chihuahua he could catch cold or die of exposure outdoors.

"We can't figure out what happened to the dog," Mr. Brereton said. "If he had simply got outside, he would have hung around the door waiting to be let back in."

The Breretons believe whoever took the dog may not appreciate Skippy's sensitivity. Even though he is large for a chihuahua he could catch cold or die of exposure outdoors.

COUNCIL ASKED TO NAME

SECOND TEAM

City council today was asked to write its collective last will and testament.

Deputy municipal affairs minister J. E. Brown asked aldermen to nominate citizens as their successors if the elected officials should be wiped out by a nuclear attack or natural disaster.

The successors, named on a priority basis in case some of them were wiped out, would take over temporary administration of Victoria's corporate affairs in the event of such an emergency.

New Car Dealer For Saanich

Saanich's first new car dealer operation, Suburban Motors Ltd., opened up this week on service station premises it has acquired on Douglas Street at Saanich Road.

Company officials announced a building program will be started soon.

Frank S. Carson, president and sales manager of the new company, said plans are for a \$30,000, 10,500 square foot building fronting on Douglas Street and Saanich Road.

Management of the company will be in the hands of Mr. Carson, formerly Ford of Canada Ltd., and John T. Fleming, company secretary and business manager who was formerly Ford of Canada's B.C. business manager.

The company will deal in Mercury, Meteor, Comet and British Ford products.

Decision to locate in Saanich, Mr. Taylor said, came from a conviction that in order to sell competitively in the auto business it is necessary to have plenty of space in low-overhead suburban areas.

Four-Month Term For Jail Break

James Butterworth, 23, was sentenced in city police court today to four months in jail for breaking away from custody at the city lockup Saturday.

Magistrate William Ostler said the sentence would date from today, and so run concurrently with two years in B.C. Penitentiary to which Butterworth was sentenced in Sidney RCMP court Monday for possession of narcotics.

The Vancouver man escaped from a jailor as he was being taken to an adjoining building from the cell block Saturday morning, and was at large nearly nine hours.

Mr. Ostler was told Butterworth had a record for theft and possession of narcotics in addition to the conviction earlier this week.

Meeting of the League of Roses (Lancs and Yorks) will be held in the Newstead Hall, 734 Fort Street, 8 p.m. Thursday. Entertainment has been arranged.

Past presidents and life members of St. Andrew's and Caledonian Society will be honored at a meeting of the society at 8 p.m. Thursday in Holyrood House.

Meeting of the Victoria Gladiolus Society will be held in the City Hall council chamber Thursday, starting at 8 p.m.

Finalists Compete

Three finalist classes will dominate the Music Festival program tonight at St. Andrew's Kirk hall. Young folk singers, Rino Elverhoi, Barbara Oldnall and Muriel Bertrand; female oratorio finalists, Peggy Packard, Margaret Thomson and Wendy Cox, and lieder singer-pianist team, Darlene Frewing, Karen Troop, Barbara Oldnall, Patricia Evans, and Norman Tyrrell-Winnifred Milburn, will compete for top honors.

Proceedings begin at 8 sharp with a children's choir contest.

PAGING THE OLD LAMPLIGHTER

Cluster Lights in Partial Eclipse

By JOHN MIKA

Mercury light boosters who claim the cluster lights don't throw enough light on city streets are only three-quarters right.

That's about all of the cluster system that is in operation now.

A Times' bulb-by-bulb count Tuesday night showed at least 271 cluster light standards out of the 500-odd in the city were not functioning properly.

Some of the blame has been placed on city council which has been swinging hot and cold for almost a year on various proposals to remove all or some of the clusters.

SLOWED DOWN

This uncertainty naturally has slowed down the cluster maintenance program somewhat although cluster addicts tend to view it darkly as a diabolical plot to eliminate the standards by attrition.

The defects uncovered in the survey of eight streets ranged from missing globes to burned out bulbs to complete five-globe standards without a single light burning.

Here's how the partial statistics added up:

Thirteen glass globes missing; 609 bulbs burned out and 70 complete cluster units unit.

25% BETTER

A reasonable assumption would be that merely replacing the casualties among the 2,500-odd bulbs would have improved street lighting more than 25 per cent Tuesday night.

Here's a breakdown of the defects and where they occur red:

Douglas, between the Roundabout and Belleville, 91 standards deficient including 28 totally dark, 180 bulbs unit and six globes missing;

Government, Michigan to Herald, 34 standards deficient including 10 totally dark, 88 bulbs unit and two globes missing;

Belleville, in front of the Legislative Buildings only,

SCHOOL VOTE ON WAY OUT

Victoria Public Library officials Tuesday took steps to stop college and high school students from using the library on weekends as a place to do their homework.

The library has become a place of "refuge" for students, who for one reason or another, find it impossible to study in their homes.

At a board meeting, library officials decided to ask Victoria College and the Greater Victoria School Board to open their school libraries or a classroom for weekend homework work.

The board's action follows a deluge of complaints from library users that students on Fridays and Saturdays completely take over the reference department for their school studies.

This was confirmed by chief librarian John Lort.

He reported that on weekends, especially on Saturday nights, it is impossible to use the reference room because of students.

The government approved the school building program Tuesday.

The bylaw will go to ratepayers a week after residents of Central Saanich vote on a water distribution bylaw calling for the expenditure of \$185,000 for provision of water mains to certain parts of the district.

Mr. Lort was not unsympathetic towards the students, but said, "Some of the students don't use any of our books or reference material for their homework."

"They only use the room as a place to study."

SHARE PLAN

But that saving may be more offset by another provincial amendment requiring Esquimalt to share its federal grants with the whole district.

Esquimalt this year has

been given a \$180,000 grant.

But the answer will be a vital one for Esquimalt, which has a lot of federal property and consequently a high federal grant.

Provincial legislation this year eliminates federal assessment from school tax computations which helps Esquimalt by reducing its \$342,879 school levy of 1960 by \$107,857 this year.

However, officials of the other municipalities are worried that Esquimalt would double up its federal grant this year to give their taxpayers a tremendous decrease in school taxes.

CUT NEXT YEAR

This could be done by adding this year's federal grant to the \$180,000 carried over from last year.

The problem is that a sharp reduction in the Esquimalt mill rate also would sharply reduce the total federal grant next year because it roughly approximates the mill rate.

A much smaller grant to Esquimalt in 1962 would also hurt the whole school district because there would be that much less federal money to throw into the pot for operating Greater Victoria schools.

80-Year-Old Man Believed Drowned

A skindiver and RCMP officers have failed to find any trace of an elderly man missing and believed drowned at Quathiaski Cove, on Quadra Island.

Missing is Bill Kask, about 80 who was last seen Thursday when he boarded his small boat at the Quathiaski Cove ferry slip for a short run to his home nearby.

Police said the small boat was found overturned on rocks near the missing man's shack

four bulbs unlit on three stands;

CUBAN REBEL LINES CUT

Murder Charge In Shooting

OTTAWA (CP)—The first secretary of the Indian High Commissioner's office here was shot and killed today and two hours later police charged Shani Ferizi, 38, with murder.

Dead is K. Sankara Pillai, about 39, killed as he was sitting at his desk on the second floor of the high commissioner's office in downtown Ottawa.

Ferizi was described by police as a naturalized Canadian citizen who came here in 1951 from Yugoslavia. They said he had been in Ottawa only a few days and his previous address was not immediately known.

Pillai was shot with a .303-calibre rifle from which more than one shot was fired, city police reported.

The shooting occurred about 11:15 p.m. PST. A few minutes later a man walked into an RCMP office about eight blocks away to report the incident. He was held there for city police.

NIKITA WARNED

'Keep
Out'
—JFK

WASHINGTON (CP)—President Kennedy has bluntly warned Soviet Premier Khrushchev to keep out of the Cuban fight or face the prospects of a Caribbean showdown with American troops.

In a diplomatic exchange bristling with threats and challenges, Kennedy Tuesday night threw his moral support behind the Cuban rebels and rejected Khrushchev's demand that he attempt to halt the invasion.

Stating again that the U.S. has no intention of military intervention in the Cuban battle, Kennedy said nevertheless that Americans do not conceal their admiration for Cuban "patriots" who are trying to overthrow Fidel Castro.

REJECTS CLAIM

Denouncing Khrushchev's claim that eventually the world will turn completely communist, Kennedy maintained the world revolution is towards freedom and the U.S. government "can take no action to stifle the spirit of liberty."

Khrushchev had warned that if the invasion is not stopped, "we shall render the Cuban people and their government all necessary assistance in beating back the armed attack on Cuba."

Kennedy shot back: "In the event of any military intervention by outside force, we will immediately honor our obligations under the Inter-American (Latin) system to protect this hemisphere against external aggression."

To qualified Western observers stationed in Washington, the atmosphere between the U.S. and Russia reminded them of the cold war fury that followed discovery of an American U-2 spy plane in Russia and ended in the shattered summit conference in Paris last year.

Finn Wins

Marathon

BOSTON (CP)—Finland's Eino Oksanen played a remorseless game of follow-the-leader, then passed Johnny Kelley of the United States in the last half mile to win the Boston marathon today for the second time.

To 'Buy' Liston?

Montreal (UPI)—Montreal restaurateur Frank de Rice is prepared to head a syndicate to purchase the contract of boxer Sonny Liston, the No. 1 heavyweight contender, the Montreal Star said today.

Orders New Trial

TORONTO (CP)—The Ontario court of appeal directed today that a new trial be held on charges of municipal corruption against Magistrate Fred Hall and Fred Linden, former municipal officials of suburban York Township. The court set aside a previous acquittal on charges of accepting bribes to expedite building permits.

Dog Returned

Skippy, three-year-old chihuahua dog taken from the home of Mr. and Mrs. H. R. Brereton, 734 Latoria, Tuesday, was returned today.

Mrs. Brereton said she happened to look out of the window to see the dog streaking towards the house. She had the impression it was "dropped off" in a car. The dog, she said, was all right.

ADVISERS JOIN ROYAL ARMY

U.S. 'Beefs Up' in Laos

WASHINGTON (UPI)—The raising its strength to about 300 men and trying to inject more military know-how and backbone into the reluctant Lao forces.

The pro-western Lao government formally asked U.S. Ambassador Winthrop Brown earlier today in Vientiane to establish a regular U.S. military advisory group, and Washington immediately authorized agreement.

The decision means putting the 250-man U.S. "Programs Evaluation Office" in Laos back into military uniforms,

Officials acknowledged that the move might be seized upon by Russia and called a "provocation" or used as an excuse for further stalling by Moscow on the western-proposed cease-fire.

However, it was said that the Kennedy administration concluded that Russia will have to be shown that the west means business when it says it will not permit further nibbling away of Laos by the Soviet-armed rebels.

NEW PRAYER BOOK INTRODUCED

New prayer book of the Anglican Church of Canada was used here for the first time today at Holy Communion service in Christ Church Cathedral preceding opening of 59th session of the Diocesan Synod of British Columbia. Discussing changes in the prayer book are (from left) Bishop Michael Cole,

man of Pender Island; Archbishop Harold Sexton, and Bishop Henry D. Martin, formerly Bishop of Saskatchewan, now retired in Victoria. Sessions of the Synod are being held today and Thursday in Christ Church Memorial Hall. (Times Photo by Bill Halkett.)

'Can't Ignore Teeming Millions In Red China' Says Archbishop

By NORMAN CRIBBENS

Archbishop Harold Sexton today exploded three controversial proposals in his charge to the 59th session of the Synod (parliament) of the Diocese of British Columbia, meeting in Christ Church Memorial Hall.

1. He urged the admission of Red China to the United Nations "without delay."

2. Suggested the Anglican Church give "sympathetic consideration" to the re-marriage in the church of deserving divorced persons.

3. Called for "proper" religious instruction in B.C. public schools and criticized the Chant report on education for offering no constructive proposals in this regard.

Of Red China, the archbishop said:

"We cannot safely ignore these teeming millions, and it would seem to be the path of wisdom to admit her without delay to the United Nations."

He urged the World Council of Churches to make strong representations to the leaders of nations for the abolition of nuclear weapons.

DISCRETIONARY POWER

On divorce, the archbishop said an increasing number of clergymen are disturbed over the rigid attitude of our Canadian church on the vexed question of re-marriage during the lifetime of a former partner.

"Some of these cases should be annulments rather than divorces," he declared, adding that some discretionary power should be given to responsible church officials to deal with

"special and deserving applications" for re-marriage in the church.

"We cannot of course entertain any sympathy for those persons who lightly regard the obligations of marriage."

"But, as most of us know, there are good and upright people who, having extricated themselves from an unfortunate and often impossible union, desire to remake their lives with partners of good character, and live as decent members of the church."

"Generally speaking, the clergy are sympathetic towards such cases and frequently arrange for a second marriage at the hands of a friendly or well-disposed minister of another body who is not subject to the inhibitions imposed upon Anglican clergy."

The archbishop said this is an unhappy state of affairs which can perhaps be resolved through an exchange of views with the Episcopal Church in the United States, which has "ways and means of giving due and sympathetic consideration to such cases."

Archbishop Sexton referred to British Columbia as "the most backward province in Canada" in the matter of religious instruction in public schools.

He said the Chant Report on education "has little to say of a constructive sort about religious instruction and observance, due probably to the fact that the members of the commission had not been drawn from further afield than B.C. itself."

"The duty of imparting religious knowledge is incumbent upon all who believe, (in religion) whether parents in the home or educators in the schools."

CANT ESCAPE

"No individual Christian can escape the obligation, and no body of legislators can honorably evade the fact that religion is one of the great experiences of mankind."

"No one can be said to be educated, even in the purely academic sense, if he has not been taught it..."

"If the royal commission had been aiming to produce the best possible recommendations from the purely educational viewpoint, it would not have rested content with a

50-Mile Advance Claimed Earlier

MIAMI, Fla. (UPI)—All communications between rebel forces in Cuba and their general headquarters outside ceased at 12:30 p.m. (PST), high exile sources said today.

The last message came when the commander of an offshore supply ship asked the rebel commander ashore: "Do you want me to evacuate you?"

The reply came back: "I will never leave this country." The exchange was relayed to rebel leaders via a third country.

By UPI

Cuban rebels said today they had swept 50 miles to the east from their invasion beachhead, linked up with rebel guerrilla forces operating from the Escambray Mountains, and successfully completed phase one of their attempt to overthrow Premier Fidel Castro.

At almost the same time the Castro government announced the invasion force in southern Cuba would be wiped out within hours.

A government communiqué said its forces had shot down four planes flying bombing missions, including one piloted by an American who was killed in the action.

Rebel planes struck at Havana and Cuban air force headquarters.

Communiques from the two sides this morning agreed only in indicating a climactic phase may have been reached in the widening war only 90 miles off American shores.

WAVE OF TERROR

The claims and counter-claims of intense military activity at the front followed news that Castro had unleashed a wave of terror aimed at preventing internal uprising.

Two Americans and seven Cubans were executed. Mass arrests took place. The prisoners included American staff correspondents of United Press International and Associated Press.

Two Yanks Executed

MIAMI, Fla. (UPI)—A Cuban government broadcast today said two Americans were shot. The prisoners included American staff correspondents of United Press International and Associated Press.

The reports of the rebel advances were made in a communiqué issued from New York by the Cuban Revolutionary Council which also said:

• The invasion force was under continuous attack by Soviet-built MIG fighter planes, heavy tanks, and artillery.

• Rebel guerrilla troops have infiltrated north from the invasion area in Las Villas

ROA CHARGES:

U.S. Pilot Shot Down In Bomber

UNITED NATIONS (UPI)—Cuba charged in the United Nations today that "an American plane, manned by an American pilot, coming from an American base" was shot down this morning by Cuban anti-aircraft defences.

Cuban Foreign Minister Raul Roa identified the pilot as Leo Francis Bell of 48 Beacon Street, Boston, Mass.

In Boston, reporters found that an address given by the Cuban radio is an apartment house. Tenants said they could recall nobody by the name of Bell.

Roa told the 99-nation committee the U.S. pilot dropped a number of bombs on the civilian population and military objectives.

The pilot was killed and his body is in possession of Cuban authorities, Roa said.

This is another flagrant proof of U.S. aggression."

Monday night, after a telephone call from Oswald Dorff, Roa told the committee he heard evidence that regular U.S. forces from Guantanamo Naval Base were participating

Missing War Paper Stirs U.K. Spy Talk

LONDON (AP)—The disappearance of a top secret admiralty document stirred suspicion at Scotland Yard today that a British spy ring may have struck again.

The missing paper detailed new methods of underwater warfare. It vanished from the offices of an unnamed engineering firm working under contract for the admiralty, police sources said.

The case has been handed over to a special anti-spy section of intelligence officers, created since the recent British spy trial.

At this trial five Soviet agents were sentenced to lengthy jail terms for stealing navy secrets.

'TIMETABLE' PROGRAM PROPOSED BY BRITAIN

LONDON (UPI)—Britain is asking the Soviet Union to agree to an immediate cease-fire in Laos Thursday, Foreign Secretary Lord Home said today.

Lord Home told the House of Lords the cease-fire request is part of a "timetable of action" being submitted to the Soviet government.

The timetable also includes a meeting of the International Commission on Laos and its dispatch to that country to verify the cease-fire. This commission comprises Canada, India and Poland.

Next on the timetable, Lord Home said, is a May 5 meeting of the 14-nation conference on Laos.

Home said he "hoped very much" that the Soviet Union would agree to the timetable.

CUBA

Continued from Page 1
Province into Matanzas Province.

Forces advancing to the east in a little over 48 hours since the start of the invasion had reached a point north of Cienfuegos, a port on the southern coast 50 miles from the invaders' beachhead.

SUPPRESSION WORKS

A leading Cuban exile source indicated that Castro's campaign of suppression during the night may have met with success.

The source said there was "no significant sign so far" of mass defections by the populace. But he said many persons were going into hiding to avoid being pressed into military service.

According to the source there was "terrible fighting" going on with rebels in at least one area pinned down by a heavy cross-fire from tanks.

"But we are holding our own," he said.

With no independent observers able to report on the situation at the front or elsewhere in Cuba, confusion clouded the actual status of operations.

PILOT

Continued from Page 1
In the island invasion. He offered no further proof nor did he return again to this charge, which was immediately picked up and broadcast by the Communist New China News Agency.

No delegate offered support for the U.S. position as the committee pressed its Cuban debate. Even Britain and France, Washington's main allies, were notably quiet.

Iraqi Ambassador Adnan Pachachi took the United States to task for insisting it had no part in the preparation or execution of the invasion.

The committee was not ready to act on Russia's demand for UN condemnation of the United States.

100 PRIESTS THROWN INTO HAVANA 'JAILS'

ST. PETERSBURG, Fla. (AP)—A thousand civilians, including 100 Roman Catholic priests, have been arrested in Havana and the Sports Palace and a downtown hotel have been converted into prisons, an anti-Castro radio station reported today. The report came from a station off the coast of Honduras.

WE'RE ON OUR ANNUAL WORRY-FREE HOLIDAY
We're taking the kiddies to visit Grandma at Prince Albert. It's so easy by train, especially with CN's low family rates. Last year my husband and I went to Portugal. The next big trip we're planning is a CN package tour of Quebec. Our CN agent sees to everything for us. When we went overseas he arranged passports, hotels, meals, sightseeing tours and all our tickets and even helped us enjoy a side trip to Spain thanks to their Go Now—Pay Later Plan. I think modern trains are fun, don't you?

31 PUBLIC MEETING IN MAY

Two Groups Study Seamen's Home

NANAIMO—A joint study for establishment of a sailor's mission here is being undertaken by the Salvation Army and the Navy League of Canada.

Increasing deep-sea trade has made the need of such a centre acute. Last month 30 ships called here for cargoes.

There are recreation centres for seamen at Victoria, Chemainus and Port Alberni, where ocean-going ships have been calling regularly for years.

There has been a considerable impetus to shipping here since construction of Harmac pulp mill and other pulp mills

on the Island, since the industry of raw materials not only for ships to terials used in pulp manufacture goods away, but also for trade.
